

Statement of Additional Information

Dated: October 1, 2024

Essential 40 Stock Fund

Class I Shares (Symbol: ESSIX)

This Statement of Additional Information (“SAI”) provides general information about the Essential 40 Stock Fund (the “Fund”), a series of Northern Lights Fund Trust II (the “Trust”). This SAI is not a prospectus and should be read in conjunction with the Fund’s current prospectus for Class I shares dated October 1, 2024 (the “Prospectus”), as supplemented and amended from time to time, which is incorporated herein by reference. To obtain a copy of the Prospectus, free of charge, please write or call the Fund at the address or telephone number below:

The Trust

The Essential 40 Stock Fund (the “Fund”) is a series of Northern Lights Fund Trust II (the “Trust”), a Delaware statutory trust. The Trust was organized on August 26, 2010. The Fund commenced operations on June 6, 2014. Prior to December 4, 2017, the Fund was known as the KKM Enhanced U.S. Equity Fund.

The Trust is registered as an open-end management investment company. The Trust is governed by its Board of Trustees (the “Board” or “Trustees”). The Fund may issue an unlimited number of shares of beneficial interest. All shares of the Fund have equal rights and privileges. Each share of the Fund is entitled to one vote on all matters as to which shares are entitled to vote. In addition, each share of the Fund is entitled to participate equally with other shares (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares of the Fund are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights. Fractional shares have proportionately the same rights, including voting rights, as are provided for a full share.

The Fund is a diversified series of the Trust. The Fund’s investment objectives, restrictions and policies are more fully described here and in the Prospectus. The Board may add classes to and reclassify the shares of the Fund, start other series and offer shares of a new fund under the Trust at any time.

The Fund has registered two classes of shares: Class A and Class I shares. Each share class represents an interest in the same assets of the Fund, has the same rights and is identical in all material respects except that (i) each class of shares may be subject to different (or no) sales loads, (ii) each class of shares may bear different (or no) distribution fees; (iii) each class of shares may have different shareholder features, such as minimum investment amounts; (iv) certain other class-specific expenses will be borne solely by the class to which such expenses are attributable, including transfer agent fees attributable to a specific class of shares, printing and postage expenses related to preparing and distributing materials to current shareholders of a specific class, registration fees paid by a specific class of shares, the expenses of administrative personnel and services required to support the shareholders of a specific class, litigation or other legal expenses relating to a class of shares, Trustees’ fees or expenses paid as a result of issues relating to a specific class of shares and accounting fees and expenses relating to a specific class of shares and (v) each class has exclusive voting rights with respect to matters relating to its own distribution arrangements. Currently, only Class I shares are being offered.

The Trust’s Agreement and Declaration of Trust - General

Under the Trust’s Amended Agreement and Declaration of Trust, each Trustee will continue in office until the termination of the Trust or his/her earlier death, incapacity, resignation or removal. Shareholders can remove a Trustee to the extent provided by the Investment Company Act of 1940, as amended (the “1940 Act”) and the rules and regulations promulgated thereunder. Vacancies may be filled by a majority of the remaining Trustees, except insofar as the 1940 Act may require the election by shareholders. As a result, normally no annual or regular meetings of shareholders will be held unless matters arise requiring a vote of shareholders under the Agreement and Declaration of Trust or the 1940 Act.

The Trust is not required to and does not intend to hold annual meetings of shareholders.

The Trust’s Agreement and Declaration of Trust – Shareholder Derivative Actions

A shareholder may bring derivative action on behalf of the Trust only if the shareholder or shareholders first make a pre-suit demand upon the Trustees to bring the subject action unless an effort to cause the

Trustees to bring such action is excused. A demand on the Trustees shall only be excused if a majority of the Board of Trustees, or a majority of any committee established by the Board to consider the merits of such action, has a personal financial interest in the action at issue.

KKM Financial LLC (the “Adviser”) serves as the investment adviser to the Fund.

Investment Policies, Strategies and Associated Risks

The investment objective of the Essential 40 Stock Fund is to seek to track, before fees and expenses, the performance of the Essential 40 Stock Index. The investment objective of the Fund and the descriptions of the Fund’s principal investment strategies are set forth under “Investment Strategies, Related Risks and Disclosure of Portfolio Holdings” in the Prospectus. The Fund’s investment objective is not fundamental and may be changed without the approval of a majority of the outstanding voting securities of the Trust, although the Fund will provide shareholders with notice of any change to the Fund’s investment objectives at least 60 days prior to such change.

The following pages contain more detailed information about the types of instruments in which the Fund may invest, strategies the Adviser may employ in pursuit of the Fund’s investment objective and a summary of related risks.

Equity Securities. The Fund may invest in equity securities such as common stock, preferred stock, convertible securities, rights and warrants. Common stocks, the most familiar type, represent an equity (ownership) interest in a corporation. Warrants are options to purchase equity securities at a specified price for a specific time period. Rights are similar to warrants, but normally have a short duration and are distributed by the issuer to its shareholders. Although equity securities have a history of long term growth in value, their prices fluctuate based on changes in a company’s financial condition and on overall market and economic conditions.

Equity securities also include SPDRs (S&P Depository Receipts, known as “Spiders”), DIAMONDS, QQQQs and a number of other exchange traded funds (“ETFs”). SPDRs represent ownership in the SPDR Trust, a unit investment trust that holds a portfolio of common stocks that closely tracks the price performance and dividend yield of the S&P 500 Composite Price Index. SPDRs trade on the American Stock Exchange under the symbol SPY. A MidCap SPDR is similar to a SPDR except that it tracks the performance of the S&P MidCap 400 Index and trades on the American Stock Exchange under the symbol MDY. DIAMONDS represent ownership in the DIAMONDS Trust, a unit investment trust that serves as an index to the Dow Jones Industrial Average (the “Dow”) in that its holdings consists of the 30 component stocks of the Dow. DIAMONDS trade on the American Stock Exchange under the symbol DIA. QQQQs (NASDAQ-100 Index Tracking Stock) represent ownership in the NASDAQ-100 Trust, a unit investment trust that attempts to closely track the price and yield performance of the NASDAQ 100 Index by holding shares of all the companies in the Index. QQQQs trade on the American Stock Exchange under the symbol QQQQ. The Fund may also invest in a variety of other exchange traded funds, including, but not limited to, iShares, HOLDRs, Fidelity Select Portfolios, Select Sector SPDRs, Fortune e-50, Fortune 500 and streetTRACKS. To the extent the Fund invests in a sector product, the Fund is subject to the risks associated with that sector. Additionally, the Fund may invest in new exchange traded shares as they become available.

Securities Lending. The Fund may make long- and short-term loans of its portfolio securities to parties such as broker-dealers, banks, or institutional investors. Securities lending allows the Fund to retain ownership of the securities loaned and, at the same time, to earn additional income. Since there may be delays in the recovery of loaned securities, or even a loss of rights in collateral supplied, should the borrower fail financially, loans will be made only to parties whose creditworthiness has been reviewed and deemed satisfactory by the Adviser. Furthermore, they will only be made if, in the judgment of the Adviser, the consideration to be earned from such loans would justify the risk.

The Adviser understands that it is the current view of the staff of the Securities and Exchange Commission (the “SEC”) that the Fund may engage in loan transactions only under the following conditions: (1) the Fund must receive 100% collateral in the form of cash, cash equivalents (e.g., U.S. Treasury bills or notes) or other high grade liquid debt instruments from the borrower; (2) the borrower must increase the collateral whenever the market value of the securities loaned (determined on a daily basis) rises above the value of the collateral; (3) after giving notice, the Fund must be able to terminate the loan at any time; (4) the Fund must receive reasonable interest on the loan or a flat fee from the borrower, as well as amounts equivalent to any dividends, interest, or other distributions on the securities loaned and to any increase in market value; (5) the Fund may pay only reasonable custodian fees in connection with the loan; and (6) the Board of Trustees must be able to vote proxies on the securities loaned, either by terminating the loan or by entering into an alternative arrangement with the borrower.

Cash received through loan transactions may be invested in any security in which the Fund is authorized to invest. Investing this cash subjects that investment, as well as the security loaned, to market forces (i.e., capital appreciation or depreciation).

Illiquid Securities. The portfolio of the Fund may contain illiquid securities. Illiquid securities generally include securities which cannot be disposed of promptly and in the ordinary course of business without taking a reduced price. Securities may be illiquid due to contractual or legal restrictions on resale or lack of a ready market. The Fund may not invest more than 15% of its net assets in illiquid securities.

U.S. Government Securities. U.S. government securities are high-quality debt securities issued or guaranteed by the U.S. Treasury or by an agency or instrumentality of the U.S. government. Not all U.S. government securities are backed by the full faith and credit of, or guaranteed by the United States Treasury. For example, securities issued by the Farm Credit Banks or by the Federal National Mortgage Association are supported by the instrumentality’s right to borrow money from the U.S. Treasury under certain circumstances. Moreover, securities issued by other agencies or instrumentalities are supported only by the credit of the entity that issued them.

Financial Services Industry Obligations. The Fund may invest in each of the following obligations of the financial services industry:

(1) Certificate of Deposit. Certificates of deposit are negotiable certificates evidencing the indebtedness of a commercial bank or a savings and loan association to repay funds deposited with it for a definite period of time (usually from fourteen days to one year) at a stated or variable interest rate.

(2) Time Deposits. Time deposits are non-negotiable deposits maintained in a banking institution or a savings and loan association for a specified period of time at a stated interest rate.

(3) Bankers’ Acceptances. Bankers’ acceptances are credit instruments evidencing the obligation of a bank to pay a draft which has been drawn on it by a customer, which instruments reflect the obligation both of the bank and of the drawer to pay the face amount of the instrument upon maturity.

Repurchase Agreements. The Fund may invest in repurchase agreements fully collateralized by obligations issued by the U.S. government or agencies of the U.S. government (“U.S. Government Obligations”). A repurchase agreement is a short-term investment in which the purchaser (i.e., the Fund) acquires ownership of a U.S. Government Obligation (which may be of any maturity) and the seller agrees to repurchase the obligation at a future time at a set price, thereby determining the yield during the purchaser’s holding period (usually not more than 7 days from the date of purchase). Any repurchase transaction in which the Fund engages will require full collateralization of the seller’s obligation during the entire term of the repurchase agreement. In the event of a bankruptcy or other default of the seller, the Fund could experience both delays in liquidating the underlying security and losses in value. However, the Fund intends to enter into repurchase agreements only with the custodian, other banks

with assets of \$1 billion or more and registered securities dealers determined by the Adviser to be creditworthy. The Adviser monitors the creditworthiness of the banks and securities dealers with which the Fund engages in repurchase transactions.

Rule 18f-4 under the 1940 Act permits the Funds to enter into reverse repurchase agreements, provided that the Fund treats the reverse repurchase agreements as either (1) borrowings subject to the asset coverage requirements under the 1940 Act (see “Borrowing” above) or (2) derivatives transactions under Rule 18f-4.

Borrowing. The Fund is permitted to borrow money up to one-third of the value of its total assets. Borrowing is a speculative technique that increases both investment opportunity and the Fund’s ability to achieve greater diversification. However, it also increases investment risk. Because the Fund’s investments will fluctuate in value, whereas the interest obligations on borrowed funds may be fixed, during times of borrowing, the Fund’s net asset value may tend to increase more when its investments increase in value, and decrease more when its investments decrease in value. In addition, interest costs on borrowings may fluctuate with changing market interest rates and may partially offset or exceed the return earned on the borrowed funds. Also, during times of borrowing under adverse market conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when fundamental investment considerations would not favor such sales.

Other Investment Companies. The Fund may invest in shares of other investment companies, including money market mutual funds, other mutual funds or Exchange Traded Funds (“ETFs”). The Fund’s investments in money market mutual funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses. The Fund limits its investments in securities issued by other investment companies in accordance with the 1940 Act or with certain terms and conditions of applicable exemptive orders issued by the SEC and approved by the Board of Trustees. Section 12(d)(1) of the 1940 Act precludes the Fund from acquiring (i) more than 3% of the total outstanding shares of another investment company; (ii) shares of another investment company having an aggregate value in excess of 5% of the value of the total assets of the Fund; or (iii) shares of another registered investment company and all other investment companies having an aggregate value in excess of 10% of the value of the total assets of the Fund. However, Section 12(d)(1)(F) of the 1940 Act provides that the provisions of paragraph 12(d)(1) shall not apply to securities purchased or otherwise acquired by the Fund if (i) immediately after such purchase or acquisition not more than 3% of the total outstanding shares of such investment company is owned by the Fund and all affiliated persons of the Fund; and (ii) the Fund has not offered or sold, and is not proposing to offer or sell its shares through a principal underwriter or otherwise at a public or offering price that includes a sales load of more than 1 1/2%. SEC Rule 12d1-3 provides, however, that the Fund may rely on the Section 12(d)(1)(F) exemption and charge a sales load in excess of 1 1/2% provided the sales load and any service fee charged does not exceed limits set forth in applicable Financial Industry Regulatory Authority, Inc. (“FINRA”) rules.

If the Fund invests in investment companies, including ETFs, pursuant to Section 12(d)(1)(F), it must comply with the following voting restrictions: when the Fund exercises voting rights, by proxy or otherwise, with respect to investment companies owned by the Fund, the Fund will either seek instruction from the Fund’s shareholders with regard to the voting of all proxies and vote in accordance with such instructions, or vote the shares held by the Fund in the same proportion as the vote of all other holders of such security. In addition, an investment company purchased by the Fund pursuant to Section 12(d)(1)(F) shall not be required to redeem its shares in an amount exceeding 1% of such investment company’s total outstanding shares in any period of less than thirty days. In addition to the advisory and operational fees the Fund bears directly in connection with its own operation, the Fund also bears its pro rata portion of the advisory and operational expenses incurred indirectly through investments in other investment companies. In addition, ETFs are subject to the following risks that do not apply to conventional mutual funds: (1) the market price of the ETF’s shares may trade at a discount to their net

asset value; (2) an active trading market for an ETF's shares may not develop or be maintained; or (3) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. Additionally, ETFs have management fees, which increase their cost.

Exchange-Traded Funds ("ETF"). An ETF generally is an open-end investment company, unit investment trust or a portfolio of securities deposited with a depository in exchange for depository receipts. The portfolios of ETFs generally consist of common stocks that closely track the performance and dividend yield of specific securities indices, either broad market, sector or international. ETFs provide investors the opportunity to buy or sell throughout the day an entire portfolio of stocks in a single security. Although index mutual funds are similar, they are generally sold and redeemed only once per day at market close. Broad securities market index ETFs include Standard & Poor's Depository Receipts ("SPDRs"), which are interests in a unit investment trust representing an undivided interest in a portfolio of all of the common stocks of the S&P 500 Index. The ETFs invests are subject to liquidity risk. Liquidity risk exists when particular investments are difficult to purchase or sell, possibly preventing the sale of the security at an advantageous time or price. To the extent that an ETFs in which the Fund invests hold securities of companies with smaller market capitalizations or securities with substantial market risk, they will have a greater exposure to liquidity risk.

Options, Futures and Other Strategies

General. Investments in futures contracts, put and call options, forward contracts, swaps and options on securities, futures, broadly-based stock indices and currencies (collectively, "Financial Instruments") as a substitute for a comparable market position in the underlying security, to attempt to hedge or limit the exposure of the Fund's position, to create a synthetic money market position, for certain tax-related purposes and to effect closing transactions.

The use of Financial Instruments is subject to applicable regulations of the SEC, the several exchanges upon which they are traded and the Commodity Futures Trading Commission (the "CFTC"). In addition, the Fund's ability to use Financial Instruments will be limited by tax considerations. In addition to the instruments, strategies and risks described below and in the Prospectus, the Fund's Adviser may discover additional opportunities in connection with Financial Instruments and other similar or related techniques. These new opportunities may become available as the Adviser develop new techniques, as regulatory authorities broaden the range of permitted transactions and as new Financial Instruments or other techniques are developed. The Adviser may utilize these opportunities to the extent that they are consistent with the Fund's investment objective and permitted by the Fund's investment limitations and applicable regulatory authorities. The Prospectus or this SAI will be supplemented to the extent that new products or techniques involve materially different risks than those described below or in the Prospectus.

Special Risks. The use of Financial Instruments involves special considerations and risks, certain of which are described below. Risks pertaining to particular Financial Instruments are described in the sections that follow.

(1) Successful use of most Financial Instruments depends upon the Adviser's or investment model's ability to predict movements of the overall securities markets, which requires different skills than predicting changes in the prices of individual securities. The ordinary spreads between prices in the cash and futures markets, due to the differences in the natures of those markets, are subject to distortion. Due to the possibility of distortion, a correct forecast of stock market trends by the Adviser may still not result in a successful transaction. The Adviser may be incorrect in their expectations as to the extent of market movements or the time span within which the movements take place, which, thus, may result in the strategy being unsuccessful.

(2) Options and futures prices can diverge from the prices of their underlying instruments. Options and futures prices are affected by such factors as current and anticipated short-term interest rates, changes in volatility of the underlying instrument and the time remaining until expiration of the contract, which may not affect security prices the same way. Imperfect or no correlation also may result from differing levels of demand in the options and futures markets and the securities markets, from structural differences in how options and futures and securities are traded and from imposition of daily price fluctuation limits or trading halts.

(3) As described below, the Fund might be required to maintain assets as “cover,” maintain segregated accounts or make margin payments when it takes positions in Financial Instruments involving obligations to third parties (*e.g.*, Financial Instruments other than purchased options). If the Fund were unable to close out its positions in such Financial Instruments, it might be required to continue to maintain such assets or accounts or make such payments until the position expired or matured. These requirements might impair the Fund’s ability to sell a portfolio security or make an investment when it would otherwise be favorable to do so or require that the Fund sell a portfolio security at a disadvantageous time. The Fund’s ability to close out a position in a Financial Instrument prior to expiration or maturity depends on the existence of a liquid secondary market or, in the absence of such a market, the ability and willingness of the other party to the transaction (the “counter-party”) to enter into a transaction closing out the position. Therefore, there is no assurance that any position can be closed out at a time and price that is favorable to the Fund.

(4) Losses may arise due to unanticipated market price movements, lack of a liquid secondary market for any particular instrument at a particular time or due to losses from premiums paid by the Fund on options transactions.

Cover. Transactions using Financial Instruments, other than purchased options, expose the Fund to an obligation to another party. The Fund will not enter into any such transactions unless it owns either (1) an offsetting (“covered”) position in securities or other options or futures contracts or (2) cash and liquid assets with a value, marked-to-market daily, sufficient to cover its potential obligations to the extent not covered as provided in (1) above. The Fund will comply with SEC guidelines regarding cover for these instruments and will, if the guidelines so require, set aside cash or liquid assets in an account with its Custodian, or another approved custodian, in the prescribed amount as determined daily.

Assets used as cover or held in an account cannot be sold while the position in the corresponding Financial Instrument is open, unless they are replaced with other appropriate assets. As a result, the commitment of a large portion of the Fund’s assets to cover accounts could impede portfolio management or the Fund’s ability to meet redemption requests or other current obligations.

Options. The value of an option position will reflect, among other things, the current market value of the underlying investment, the time remaining until expiration, the relationship of the exercise price to the market price of the underlying investment and general market conditions. Options that expire unexercised have no value. Options currently are traded on the Chicago Board Options Exchange, the NYSE Amex Options exchange and other exchanges, as well as the OTC markets.

By buying a call option on a security, the Fund has the right, in return for the premium paid, to buy the security underlying the option at the exercise price. By writing (selling) a call option and receiving a premium, the Fund becomes obligated during the term of the option to deliver securities underlying the option at the exercise price if the option is exercised. By buying a put option, the Fund has the right, in return for the premium, to sell the security underlying the option at the exercise price. By writing a put option, the Fund becomes obligated during the term of the option to purchase the securities underlying the option at the exercise price.

Because options premiums paid or received by the Fund are small in relation to the market value of the investments underlying the options, buying and selling put and call options can be more speculative than investing directly in securities.

The Fund may effectively terminate its right or obligation under an option by entering into a closing transaction. For example, the Fund may terminate its obligation under a call or put option that it had written, by purchasing an identical call or put option. This is known as a closing purchase transaction. Conversely, the Fund may terminate a position in a put or call option it had purchased by writing an identical put or call option. This is known as a closing sale transaction. Closing transactions permit the Fund to realize profits or limit losses on an option position prior to its exercise or expiration.

Risks of Options on Securities. Exchange-traded options in the United States are issued by a clearing organization affiliated with the exchange on which the option is listed that, in effect, guarantees completion of every exchange-traded option transaction. In contrast, OTC options are contracts between the Fund and its counterparty (usually a securities dealer or a bank) with no clearing organization guarantee. Thus, when the Fund purchases an OTC option, it relies on the counterparty from whom it purchased the option to make or take delivery of the underlying investment upon exercise of the option. Failure by the counterparty to do so would result in the loss of any premium paid by the Fund as well as the loss of any expected benefit of the transaction.

The Fund's ability to establish and close out positions in exchange-traded options depends on the existence of a liquid market. However, there can be no assurance that such a market will exist at any particular time. Closing transactions can be made for OTC options only by negotiating directly with the counterparty or by a transaction in the secondary market if any such market exists. There can be no assurance that the Fund will in fact be able to close out an OTC option position at a favorable price prior to expiration. In the event of insolvency of the counterparty, the Fund might be unable to close out an OTC option position at any time prior to its expiration.

If the Fund were unable to effect a closing transaction for an option it had purchased, it would have to exercise the option to realize any profit. The inability to enter into a closing purchase transaction for a covered call option written by the Fund could cause material losses because the Fund would be unable to sell the investment used as cover for the written option until the option expires or is exercised.

Options on Indices. An index fluctuates with changes in the market values of the securities included in the index. Options on indices give the holder the right to receive an amount of cash upon exercise of the option. Receipt of this cash amount will depend upon the closing level of the index upon which the option is based being greater than (in the case of a call) or less than (in the case of a put) the exercise price of the option. Some stock index options are based on a broad market index such as the S&P 500 Index, the NYSE Composite Index or the NYSE Arca Major Market Index or on a narrower index such as the Philadelphia Stock Exchange Over-the-Counter Index.

Each of the exchanges has established limitations governing the maximum number of call or put options on the same index that may be bought or written by a single investor, whether acting alone or in concert with others (regardless of whether such options are written on the same or different exchanges or are held or written on one or more accounts or through one or more brokers). Under these limitations, option positions of all investment companies advised by the Adviser are combined for purposes of these limits. Pursuant to these limitations, an exchange may order the liquidation of positions and may impose other sanctions or restrictions. These position limits may restrict the number of listed options that the Fund may buy or sell.

Puts and calls on indices are similar to puts and calls on securities or futures contracts except that all settlements are in cash and gain or loss depends on changes in the index in question rather than on price

movements in individual securities or futures contracts. When the Fund writes a call on an index, it receives a premium and agrees that, prior to the expiration date, the purchaser of the call, upon exercise of the call, will receive from the Fund an amount of cash if the closing level of the index upon which the call is based is greater than the exercise price of the call. The amount of cash is equal to the difference between the closing price of the index and the exercise price of the call times a specified multiple (“multiplier”), which determines the total value for each point of such difference. When the Fund buys a call on an index, it pays a premium and has the same rights to such call as are indicated above. When the Fund buys a put on an index, it pays a premium and has the right, prior to the expiration date, to require the seller of the put, upon the Fund’s exercise of the put, to deliver to the Fund an amount of cash if the closing level of the index upon which the put is based is less than the exercise price of the put, which amount of cash is determined by the multiplier, as described above for calls. When the Fund writes a put on an index, it receives a premium and the purchaser of the put has the right, prior to the expiration date, to require the Fund to deliver to it an amount of cash equal to the difference between the closing level of the index and the exercise price times the multiplier if the closing level is less than the exercise price.

Risks of Options on Indices. If the Fund has purchased an index option and exercises it before the closing index value for that day is available, it runs the risk that the level of the underlying index may subsequently change. If such a change causes the exercised option to fall out-of-the-money, the Fund will be required to pay the difference between the closing index value and the exercise price of the option (times the applicable multiplier) to the assigned writer.

Futures Contracts and Options on Futures Contracts. A futures contract obligates the seller to deliver (and the purchaser to take delivery of) the specified security on the expiration date of the contract. An index futures contract obligates the seller to deliver (and the purchaser to take) an amount of cash equal to a specific dollar amount times the difference between the value of a specific index at the close of the last trading day of the contract and the price at which the agreement is made. No physical delivery of the underlying securities in the index is made.

When the Fund writes an option on a futures contract, it becomes obligated, in return for the premium paid, to assume a position in the futures contract at a specified exercise price at any time during the term of the option. If the Fund writes a call, it assumes a short futures position. If it writes a put, it assumes a long futures position. When the Fund purchases an option on a futures contract, it acquires the right in return for the premium it pays to assume a position in a futures contract (a long position if the option is a call and a short position if the option is a put).

Whether the Fund realizes a gain or loss from futures activities depends upon movements in the underlying security or index. The extent of the Fund’s loss from an unhedged short position in futures contracts or from writing unhedged call options on futures contracts is potentially unlimited. The Fund only purchases and sells futures contracts and options on futures contracts that are traded on a U.S. exchange or board of trade.

No price is paid upon entering into a futures contract. Instead, at the inception of a futures contract the Fund is required to deposit “initial margin” in an amount generally equal to 10% or less of the contract value. Margin also must be deposited when writing a call or put option on a futures contract, in accordance with applicable exchange rules. Unlike margin in securities transactions, initial margin does not represent a borrowing, but rather is in the nature of a performance bond or good-faith deposit that is returned to the Fund at the termination of the transaction if all contractual obligations have been satisfied. Under certain circumstances, such as periods of high volatility, the Fund may be required by an exchange to increase the level of its initial margin payment, and initial margin requirements might be increased generally in the future by regulatory action.

Subsequent “variation margin” payments are made to and from the futures commission merchant daily as the value of the futures position varies, a process known as “marking-to-market.” Variation margin does not involve borrowing, but rather represents a daily settlement of the Fund’s obligations to or from a futures commission merchant. When the Fund purchases an option on a futures contract, the premium paid plus transaction costs is all that is at risk. In contrast, when the Fund purchases or sells a futures contract or writes a call or put option thereon, it is subject to daily variation margin calls that could be substantial in the event of adverse price movements. If the Fund has insufficient cash to meet daily variation margin requirements, it might need to sell securities at a time when such sales are disadvantageous.

Purchasers and sellers of futures contracts and options on futures can enter into offsetting closing transactions, similar to closing transactions in options, by selling or purchasing, respectively, an instrument identical to the instrument purchased or sold. Positions in futures and options on futures contracts may be closed only on an exchange or board of trade that provides a secondary market. However, there can be no assurance that a liquid secondary market will exist for a particular contract at a particular time. In such event, it may not be possible to close a futures contract or options position.

Under certain circumstances, futures exchanges may establish daily limits on the amount that the price of a futures contract or an option on a futures contract can vary from the previous day’s settlement price. Once that limit is reached, no trades may be made that day at a price beyond the limit. Daily price limits do not limit potential losses because prices could move to the daily limit for several consecutive days with little or no trading, thereby preventing liquidation of unfavorable positions.

If the Fund were unable to liquidate a futures contract or an option on a futures position due to the absence of a liquid secondary market or the imposition of price limits, it could incur substantial losses. The Fund would continue to be subject to market risk with respect to the position. In addition, except in the case of purchased options, the Fund would continue to be required to make daily variation margin payments and might be required to maintain cash or liquid assets in an account.

Risks of Futures Contracts and Options Thereon. The ordinary spreads between prices in the cash and futures markets (including the options on futures markets), due to differences in the natures of those markets, are subject to the following factors, which may create distortions. First, all participants in the futures market are subject to margin deposit and maintenance requirements. Rather than meeting additional margin deposit requirements, investors may close futures contracts through offsetting transactions, which could distort the normal relationships between the cash and futures markets. Second, the liquidity of the futures market depends on participants entering into offsetting transactions rather than making or taking delivery. To the extent participants decide to make or take delivery, liquidity in the futures market could be reduced, thus producing distortion. Third, from the point of view of speculators, the deposit requirements in the futures market are less onerous than margin requirements in the securities market. Therefore, increased participation by speculators in the futures market may cause temporary price distortions.

Combined Positions. The Fund may purchase and write options in combination with each other. For example, the Fund may purchase a put option and write a call option on the same underlying instrument, in order to construct a combined position whose risk and return characteristics are similar to selling a futures contract. Another possible combined position would involve writing a call option at one strike price and buying a call option at a lower price, in order to reduce the risk of the written call option in the event of a substantial price increase. Because combined options positions involve multiple trades, they result in higher transaction costs and may be more difficult to open and close out.

Short-Term Fixed Income Securities and Cash Investments

The Fund may invest in any of the following securities and instruments:

Money Market Mutual Funds. The Fund may invest in money market mutual funds in connection with its management of daily cash positions or as a temporary defensive measure. Generally, money market mutual funds seek to earn income consistent with the preservation of capital and maintenance of liquidity. They primarily invest in high quality money market obligations, including securities issued or guaranteed by the U.S. Government or its agencies and instrumentalities, bank obligations and high-grade corporate instruments. These investments generally mature within 397 days from the date of purchase. An investment in a money market mutual fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any government agency. The Fund's investments in money market mutual funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses.

Your cost of investing in the Fund will generally be higher than the cost of investing directly in the underlying money market mutual fund shares. You will indirectly bear fees and expenses charged by the underlying money market mutual funds in addition to the Fund's direct fees and expenses. Furthermore, the use of this strategy could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes payable by you.

Bank Certificates of Deposit, Bankers' Acceptances and Time Deposits. The Fund may acquire certificates of deposit, bankers' acceptances and time deposits. Certificates of deposit are negotiable certificates issued against monies deposited in a commercial bank for a definite period of time and earning a specified return. Bankers' acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are "accepted" by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers' acceptances acquired by the Fund will be dollar-denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans that may be made and interest rates that may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds for the purpose of financing lending operations under prevailing money market conditions. General economic conditions as well as exposure to credit losses arising from possible financial difficulties of borrowers play an important part in the operations of the banking industry.

As a result of federal and state laws and regulations, domestic banks are, among other things, required to maintain specified levels of reserves, limited in the amount which they can loan to a single borrower and subject to other regulations designed to promote financial soundness. However, such laws and regulations do not necessarily apply to foreign bank obligations that the Fund may acquire.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under the investment objective and policies stated above and in the Prospectus, the Fund may make interest-bearing time or other interest-bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Fund may invest in certificates of deposit (interest-bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

Commercial Paper, Short-Term Notes and Other Corporate Obligations. The Fund may invest a portion of its assets in commercial paper and short-term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short-term notes will consist of issues rated at the time of purchase “A-2” or higher by S&P, “Prime-1” or “Prime-2” by Moody’s, or similarly rated by another nationally recognized statistical rating organization or, if unrated, will be determined by the Adviser to be of comparable quality.

Corporate obligations include bonds and notes issued by corporations to finance longer-term credit needs than supported by commercial paper. While such obligations generally have maturities of ten years or more, the Fund may purchase corporate obligations which have remaining maturities of one year or less from the date of purchase and which are rated “A” or higher by S&P or “A” or higher by Moody’s.

U.S. Government Obligations

The Fund may invest in various types of U.S. Government obligations. U.S. Government obligations include securities issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, such as the U.S. Treasury. U.S. Government obligations may include securities such as Treasury Inflation Protected Securities, or “TIPS.” Payment of principal and interest on U.S. Government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. In the latter case, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, which agency or instrumentality may be privately owned. There can be no assurance that the U.S. Government would provide financial support to its agencies or instrumentalities (including government-sponsored enterprises) where it is not obligated to do so. See also “Mortgage-Backed Securities,” below.

When-Issued Securities

The Fund may from time to time purchase securities on a “when-issued” basis. The price of such securities, which may be expressed in yield terms, is fixed at the time the commitment to purchase is made, but delivery and payment for the when-issued securities take place at a later date. Normally, the settlement date occurs within one month of the purchase. During the period between purchase and settlement, the Fund makes no payment to the issuer and no interest accrues to the Fund. To the extent that assets of the Fund are held in cash pending the settlement of a purchase of securities, the Fund would earn no income. While when-issued securities may be sold prior to the settlement date, the Fund intends to purchase such securities with the purpose of actually acquiring them unless a sale appears desirable for investment reasons. At the time the Fund makes the commitment to purchase a security on a when-issued basis, it will record the transaction and reflect the value of the security in determining its net asset value. The market value of the when-issued securities may be more or less than the purchase price. The Fund does not believe that its net asset value or income will be adversely affected by the purchase of securities on a when-issued basis. The Fund will segregate liquid assets equal in value to commitments for when-issued securities, which may reduce but does not eliminate leverage.

Additional Risks

Regulatory Risks of Derivative Use

Rule 18f-4 under the 1940 Act permits the Fund to enter into Derivatives Transactions (as defined below) and certain other transactions notwithstanding the restrictions on the issuance of “senior securities” under Section 18 of the 1940 Act. Section 18 of the 1940 Act, among other things, prohibits open-end funds, including the Funds, from issuing or selling any “senior security,” other than borrowing from a bank (subject to a requirement to maintain 300% “asset coverage”).

Under Rule 18f-4, “Derivatives Transactions” include the following: (1) any swap, security-based swap (including a contract for differences), futures contract, forward contract, option (excluding purchased options), any combination of the foregoing, or any similar instrument, under which the Fund is or may be required to make any payment or delivery of cash or other assets during the life of the instrument or at maturity or early termination, whether as margin or settlement payment or otherwise; (2) any short sale borrowing; (3) reverse repurchase agreements and similar financing transactions (e.g., recourse and non-recourse tender option bonds, and borrowed bonds), if the Fund elects to treat these transactions as Derivatives Transactions under Rule 18f-4; and (4) when-issued or forward-settling securities (e.g., firm and standby commitments, including to-be-announced commitments, and dollar rolls) and non-standard settlement cycle securities, unless the Fund intends to physically settle the transaction and the transaction will settle within 35 days of its trade date (the “Delayed-Settlement Securities Provision”).

Unless the Fund is relying on the Limited Derivatives User Exception (as defined below), the Fund must comply with Rule 18f-4 with respect to its Derivatives Transactions. Rule 18f-4, among other things, requires the Fund to adopt and implement a comprehensive written derivatives risk management program (“DRMP”) and comply with a relative or absolute limit on Fund leverage risk calculated based on value-at-risk (“VaR”). The DRMP is administered by a “derivatives risk manager,” who is appointed by the Board, including a majority of Independent Directors/Trustees, and periodically reviews the DRMP and reports to the Board.

Rule 18f-4 provides an exception from the DRMP, VaR limit and certain other requirements if the Fund’s “derivatives exposure” (as defined in Rule 18f-4) is limited to 10% of its net assets (as calculated in accordance with Rule 18f-4) and the Fund adopts and implements written policies and procedures reasonably designed to manage its derivatives risks (the “Limited Derivatives User Exception”).

The European Union (and some other countries) are implementing similar requirements, which will affect the Fund when it enters into a derivatives transaction with a counterparty organized in that country or otherwise subject to that country’s derivatives regulations. Because these regulations are new and evolving (and some of the rules are not yet final), their impact remains unclear.

These regulations could limit or impact the Fund’s ability to invest in derivatives and other instruments, limit the Fund’s ability to employ certain strategies that use derivatives and adversely affect the Fund’s performance, efficiency in implementing its strategy, liquidity and ability to pursue its investment objectives.

Effective in 2013, the Commodities Futures Trading Commission (“CFTC”) rules require advisers to certain registered investment companies to register with the CFTC as commodity pool operators (“CPO”) if their investment companies are unable to meet certain trading and marketing limitations. The Funds’ Adviser has claimed relief from registration as a CPO. However, it is possible that the Adviser may be required to register as a CPO in the future and comply with any applicable reporting, disclosure or other regulatory requirements. Compliance with CFTC regulatory requirements will increase Fund expenses. Other potentially adverse regulatory initiatives could also develop.

It is also possible that additional government regulation of various types of derivative instruments, including futures, options and swap agreements, may limit or prevent the Fund from using such instruments as a part of its investment strategy, and could ultimately prevent the Fund from being able to achieve its investment objective. It is impossible to fully predict the effects of past, present or future legislation and regulation in this area, but the effects could be substantial and adverse. It is possible that legislative and regulatory activity could limit or restrict the ability of the Fund to use certain instruments as a part of its investment strategy. Limits or restrictions applicable to the counterparties with which the Fund may engage in derivative transactions could also prevent the Fund from using certain instruments.

There is a possibility of future regulatory changes altering, perhaps to a material extent, the nature of an investment in the Fund or the ability of the Fund to continue to implement its investment strategy. The futures, options and swaps markets are subject to comprehensive statutes, regulations, and margin requirements. In addition, the SEC, CFTC and the exchanges are authorized to take extraordinary actions in the event of a market emergency, including, for example, the implementation or reduction of speculative position limits, the implementation of higher margin requirements, the establishment of daily price limits and the suspension of trading. The regulation of futures, options and swaps transactions in the U.S. is a rapidly changing area of law and is subject to modification by government and judicial action.

In 2010, the U.S. government enacted legislation that provides for new regulation of the derivatives market, including clearing, margin, reporting and registration requirements. The CFTC and certain futures exchanges have also established limits, referred to as “position limits,” on the maximum net long or net short positions which any person may hold or control in particular options and futures contracts. All positions owned or controlled by the same person or entity, even if in different accounts, may be aggregated for purposes of determining whether the applicable position limits have been exceeded. Thus, even if the Fund does not intend to exceed applicable position limits, it is possible that different clients managed by the Adviser and its affiliates may be aggregated for this purpose. The trading decisions of the Adviser or Sub-Adviser may have to be modified and positions held by the Fund may have to be liquidated in order to avoid exceeding such limits. The modification of investment decisions or the elimination of open positions, if it occurs, may adversely affect the profitability of the Fund.

The SEC has in the past adopted interim rules requiring reporting of all short positions on securities above a certain *de minimis* threshold and may adopt rules requiring monthly and/or enhanced public disclosure in the future. In addition, other non-U.S. jurisdictions where the Fund may trade have adopted reporting requirements. If the Fund’s securities short positions or its strategy become generally known, it could have a significant effect on the Adviser’s or Sub-Adviser’s ability to implement its investment strategy. In particular, it would make it more likely that other investors could cause a “short squeeze” in the securities held short by the Fund forcing the Fund to cover its positions at a loss. Such reporting requirements may also limit the Adviser’s or Sub-Adviser’s ability to access management and other personnel at certain companies where the Adviser or Sub-Adviser seeks to take a short position. In addition, if other investors engage in copycat behavior by taking positions in the same issuers as the Fund, the cost of borrowing securities to sell short could increase drastically and the availability of such securities to the Fund could decrease drastically. Such events could make the Fund unable to execute its investment strategy. In addition, the SEC recently proposed additional restrictions on short sales. If the SEC were to adopt additional restrictions regarding short sales, they could restrict the Fund’s ability to engage in short sales of securities in certain circumstances, and the Fund may be unable to execute its investment strategy as a result.

The SEC and regulatory authorities in other jurisdictions may adopt (and in certain cases, have adopted) bans on short sales of certain securities in response to market events. Bans on short selling may make it impossible for the Fund to execute certain investment strategies and may have a material adverse effect on the Fund’s ability to generate returns.

Risks Associated With Recent Market Events

The Fund could lose money over short periods due to short-term market movements and over longer periods during more prolonged market downturns. The value of a security or other instrument may decline due to changes in general market conditions, economic trends or events that are not specifically related to the issuer of the security or other instrument, or factors that affect a particular issuer or issuers, country, group of countries, region, market, industry, group of industries, sector or asset class. During a general market downturn, multiple asset classes may be negatively affected. Changes in market conditions and interest rates generally do not have the same impact on all types of securities and instruments.

Stresses associated with the 2008 financial crisis in the United States and global economies peaked approximately a decade ago, but periods of unusually high volatility in the financial markets and restrictive credit conditions, sometimes limited to a particular sector or a geography, continue to recur. Some countries, including the United States, have adopted and/or are considering the adoption of more protectionist trade policies, a move away from the tighter financial industry regulations that followed the financial crisis, and/or substantially reducing corporate taxes. The exact shape of these policies is still being considered, but the equity and debt markets may react strongly to expectations of change, which could increase volatility, especially if the market's expectations are not borne out. A rise in protectionist trade policies, and the possibility of changes to some international trade agreements, could affect the economies of many nations in ways that cannot necessarily be foreseen at the present time. In addition, geopolitical and other risks, including environmental and public health, may add to instability in world economies and markets generally. Economies and financial markets throughout the world are becoming increasingly interconnected. As a result, whether or not the Fund invests in securities of issuers located in or with significant exposure to countries experiencing economic, political and/or financial difficulties, the value and liquidity of the Fund's investments may be negatively affected by such events.

An outbreak of infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in December 2019 and developed into a global pandemic. COVID-19 has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, business and school closings, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. Disruptions in markets can adversely impact a Fund and its investments. Further, certain local markets have been or may be subject to closures, and there can be no certainty regarding whether trading will continue in any local markets in which a Fund may invest, when any resumption of trading will occur or, once such markets resume trading, whether they will face further closures. Any suspension of trading in markets in which a Fund invests will have an impact on the Fund and its investments and will impact the Fund's ability to purchase or sell securities in such market. The outbreak could also impair the information technology and other operational systems upon which a Fund's service providers, including BlackRock, rely, and could otherwise disrupt the ability of employees of a Fund's service providers to perform critical tasks relating to the Fund. The impact of this outbreak has adversely affected the economies of many nations and the entire global economy and may impact individual issuers and capital markets in ways that cannot be foreseen. In the past, governmental and quasi-governmental authorities and regulators through the world have at times responded to major economic disruptions with a variety of fiscal and monetary policy changes, including direct capital infusions into companies and other issuers, new monetary policy tools, and lower interest rates. An unexpected or sudden reversal of these policies, or the ineffectiveness of such policies, is likely to increase market volatility, which could adversely affect a Fund's investments. Public health crises caused by the outbreak may exacerbate other preexisting political, social and economic risks in certain countries or globally. Other infectious illness outbreaks that may arise in the future could have similar or other

unforeseen effects. The duration of this outbreak or others and their effects cannot be determined with certainty.

kets in ways that cannot be foreseen. Other infectious illness outbreaks that may arise in the future could have similar or other unforeseen effects. The duration of this outbreak or others and their effects cannot be determined with certainty.

rsely affect a Fund's investments. Public health crises caused by the outbreak may exacerbate other preexisting political, social and economic risks in certain countries or globally. Other infectious illness outbreaks that may arise in the future could have similar or other unforeseen effects. The duration of this outbreak or others and their effects cannot be determined with certainty.

Russia's invasion of Ukraine have had, and could continue to have, severe adverse effects on regional and global economic markets for securities and commodities. Following Russia's actions, various governments, including the United States, have issued broad-ranging economic sanctions against Russia, including, among other actions, a prohibition on doing business with certain Russian companies, large financial institutions, officials and oligarchs; the removal by certain countries and the European Union of selected Russian banks from the Society for Worldwide Interbank Financial Telecommunications ("SWIFT"), the electronic banking network that connects banks globally; and restrictive measures to prevent the Russian Central Bank from undermining the impact of the sanctions. The current events, including sanctions and the potential for future sanctions, including any impacting Russia's energy sector, and other actions, and Russia's retaliatory responses to those sanctions and actions, may continue to adversely impact the Russian economy and may result in the further decline of the value and liquidity of Russian securities, a continued weakening of the ruble and continued exchange closures, and may have other adverse consequences on the Russian economy that could impact the value of Russian investments and impair the ability of the Fund to buy, sell, receive or deliver those securities. Moreover, those events have, and could continue to have, an adverse effect on global markets performance and liquidity, thereby negatively affecting the value of the Fund's investments beyond any direct exposure to Russian issuers. The duration of ongoing hostilities and the vast array of sanctions and related events cannot be predicted. Those events present material uncertainty and risk with respect to markets globally and the performance of the Fund and its investments or operations could be negatively impacted.

In October 2023, armed conflict broke out between Israel and the militant group Hamas after Hamas infiltrated Israel's southern border from the Gaza Strip. In response, Israel declared war on Hamas and Israeli Defense Forces invaded the Gaza Strip. Events in Israel, Gaza, and the greater Middle East region are rapidly evolving, and the extent and duration of the Israel-Hamas war are impossible to predict.

Both actual hostilities, including the Israel-Hamas war described above, and the threat of future hostilities may have a significant adverse effect on Israel's economy, including increased volatility in the share price of companies based in or with operations in Israel, local securities trading suspensions, local securities

market closures (including for extended periods), a lack of transparency concerning Israeli issuers or other local market information, and increased restrictions on foreign investment or repatriation of capital. Such hostilities or an attack also may escalate into a more wide-scale conflict with the potential for greater and far-reaching adverse effects in the region and globally. While it is not possible to predict the extent and duration of any such conflict, the resulting market disruptions could be significant, including in certain industries or sectors, such as the oil and natural gas markets, and may negatively affect global supply chains, inflation and global growth. These and any related events could significantly impact a Fund's performance and the value of an investment in the Fund, even if the Fund does not have direct exposure to Israeli issuers or issuers in other countries affected by the war.

Government Intervention in Financial Markets Risk

Instability in the financial markets may lead the U.S. government and foreign governments to take a number of unprecedented actions designed to support certain financial institutions and segments of the financial markets that may experience extreme volatility, and in some cases a lack of liquidity. U.S. federal and state governments and foreign governments, their regulatory agencies or self-regulatory organizations may take additional actions that affect the regulation of the securities in which the Fund invests, or the issuers of such securities, in ways that are unforeseeable. Issuers of corporate securities might seek protection under the bankruptcy laws. Legislation or regulation may also change the way in which the Fund itself is regulated. Such legislation or regulation could limit or preclude the Fund's ability to achieve its investment objective.

Fundamental Investment Limitations

The Trust (on behalf of the Fund) has adopted the following restrictions as fundamental policies, which may not be changed without the favorable vote of the holders of a "majority of the outstanding voting securities of the Fund," as defined in the 1940 Act. Under the 1940 Act, the "vote of the holders of a majority of the outstanding voting securities" means the vote of the holders of the lesser of (i) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented or (ii) more than 50% of the outstanding shares of the Fund.

The Fund may not:

1. Issue senior securities. This limitation is not applicable to activities that may be deemed to involve the issuance or sale of a senior security by the Fund, provided that the Fund's engagement in such activities is consistent with or permitted by the 1940 Act, as amended, the rules and regulations promulgated thereunder or interpretations of the SEC or its staff;
2. Borrow money, except (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund's total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions;
3. Purchase securities on margin, participate on a joint or joint and several basis in any securities trading account, or underwrite securities. (Does not preclude the Fund from obtaining such short-term credit as may be necessary for the clearance of purchases and sales of its portfolio securities, and except to the extent that the Fund may be deemed an underwriter under the Securities Act of 1933, by virtue of disposing of portfolio securities);
4. Purchase or sell real estate or interests in real estate. This limitation does not preclude the Fund from investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate;

5. Invest 25% or more of the market value of its assets in the securities of companies engaged in any one industry. (Does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities.);
6. Purchase or sell commodities (unless acquired as a result of ownership of securities or other investments) or commodity futures contracts, except that the Fund may purchase and sell futures contracts and options to the full extent permitted under the 1940 Act, sell foreign currency contracts in accordance with any rules of the Commodity Futures Trading Commission, invest in securities or other instruments backed by commodities, and invest in companies that are engaged in a commodities business or have a significant portion of their assets in commodities;
7. Make loans to others, except (a) through the purchase of debt securities in accordance with its investment objectives and policies, (b) to the extent the entry into a repurchase agreement is deemed to be a loan, and (c) by loaning portfolio securities; or
8. With respect to 75% of its total assets, invest 5% or more of its total assets in securities of a single issuer or hold more than 10% of the voting securities of such issuer (does not apply to investment in the securities of the U.S. government, its agencies or instrumentalities, or other investment companies). As a matter of operating policy, the Fund will not consider repurchase agreements to be subject to the above-stated 5% limitation if all of the collateral underlying the repurchase agreements are U.S. government securities and such repurchase agreements are fully collateralized.

The following lists the non-fundamental investment restrictions applicable to the Fund. These restrictions can be changed by the Board of Trustees, but the change will only be effective after notice is given to shareholders of the Fund.

The Fund may:

1. Invest in other investment companies to the extent permitted by the Investment Company Act of 1940 (“1940 Act”) or the rules thereunder or pursuant to exemptive relief granted by the Securities and Exchange Commission (“SEC”).

The Fund may not:

2. Invest 15% or more of the value of its net assets, computed at the time of investment, in illiquid securities. Illiquid securities are those securities without readily available market quotations, including repurchase agreements having a maturity of more than seven days. Illiquid securities may include restricted securities not determined by the Board of Trustees to be liquid, non-negotiable time deposits, over-the-counter options and repurchase agreements providing for settlement in more than seven days after notice.
3. Invest in other investment companies advised by the same investment adviser as the Fund or in investment companies advised by affiliates of such adviser.

Except with respect to borrowing and illiquid securities, if a percentage or rating restriction on investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in percentage resulting from any cause other than actions by the Fund will not be considered a violation.

Management of the Fund

Board of Trustees

The management and affairs of the Fund is supervised by the Board of Trustees. The Board of Trustees consists of five individuals, each of whom are not “interested persons” (as defined under the 1940 Act) of the Trust and the Adviser (“Independent Trustees”). The Trustees are fiduciaries for the Fund’s shareholders and are governed by the laws of the State of Delaware in this regard. The Board of Trustees establishes policies for the operation of the Fund and appoints the officers who conduct the daily business of the Fund.

Board Leadership Structure

The Trust is led by Mr. Brian Nielsen, who has served as the Chairman of the Board since 2011. The Board of Trustees is comprised of Mr. Nielsen and four (4) other Independent Trustees. Under certain 1940 Act governance guidelines that apply to the Trust, the Independent Trustees will meet in executive session, at least quarterly. Under the Trust’s Agreement and Declaration of Trust and By-Laws, the Chairman of the Board is responsible for (a) presiding at board meetings, (b) calling special meetings on an as-needed basis, (c) setting the agendas for board meetings and (d) ensuring board members are provided necessary materials in advance of each board meeting. The Trust believes that (i) its Chairman, (ii) Keith Rhoades, the independent chair of the Audit Committee, and, (iii) as an entity, the full Board of Trustees, provide effective leadership that is in the best interests of the Trust, each of its funds and each shareholder.

In accordance with the fund governance standards prescribed by the SEC under the 1940 Act, the Independent Trustees on the Nominating Committee select and nominate all candidates for Independent Trustee positions. Each Trustee was appointed to serve on the Board of Trustees because of his experience, qualifications, attributes and/or skills. The Board of Trustees reviews its leadership structure regularly on at least an annual basis. The Board of Trustees believes that the structure described above facilitates the orderly and efficient flow of information to the Trustees from the officers of the Trust, the advisers of the funds that comprise the Trust and other service providers, and facilitates the effective evaluation of the risks and other issues, including conflicts of interest, that may impact the Trust as a whole as well as the funds individually. The Board of Trustees believes that the orderly and efficient flow of information and the ability of the Board of Trustees to bring each Trustee’s experience and skills to bear in overseeing the Trust’s operations is important given the characteristics and circumstances of the Trust, including: the unaffiliated nature of each investment adviser and the fund(s) managed by such adviser; the number of funds that comprise the Trust; the variety of asset classes that those funds reflect; the net assets of the Trust; the committee structure of the Trust; and the independent arrangements of each of the Trust’s series. For these reasons, the Board of Trustees believes that its leadership structure is appropriate.

Board Responsibilities.

The Board of Trustees’ role is one of oversight rather than day-to-day management of any of the Trust’s series. The Trust’s Audit Committee assists with this oversight function. The Board of Trustees’ oversight extends to the Trust’s risk management processes. Those processes are overseen by Trust officers, including the President, the Treasurer, the Secretary and Chief Compliance Officer (“CCO”), who regularly report to the Board of Trustees on a variety of matters at Board meetings.

Board Risk Oversight.

The Board of Trustees is comprised of Mr. Nielsen and four (4) other Independent Trustees with a standing independent Audit Committee with a separate chair. The Board is responsible for overseeing risk management, and the full Board regularly engages in discussions of risk management and receives compliance reports that inform its oversight of risk management from its CCO at quarterly meetings and on an ad hoc basis, when and if necessary. The Audit Committee considers financial and reporting risk within its area of responsibilities. Generally, the Board believes that its oversight of material risks is adequately maintained through the compliance-reporting chain where the CCO is the primary recipient and communicator of such risk-related information and oversees the Trust's service providers' adherence to the Trust's policies and procedures.

Investment advisers managing the Trust's series report to the Trust's CCO and the Board of Trustees, on a regular and as-needed basis, on actual and possible risks affecting the Trust's series. These investment advisers report to the CCO and the Board of Trustees on various elements of risk, including investment, credit, liquidity, valuation, operational and compliance risks, as well as any overall business risks that could impact the Trust's series.

The Board of Trustees has appointed the CCO, who reports directly to the Board of Trustees and who participates in its regular meetings. In addition, the CCO conducts on-going and continuous compliance testing and presents an annual report to the Board of Trustees in accordance with the Trust's compliance policies and procedures. The CCO, together with the Trust's President, Treasurer and Secretary, regularly discusses risk issues affecting the Trust and its series during Board of Trustee meetings. The CCO also provides updates to the Board of Trustees on the operation of the Trust's compliance policies and procedures and on how these procedures are designed to mitigate risk. Finally, the CCO and/or other officers of the Trust report to the Board of Trustees in the event that any material risk issues arise in between Board meetings.

Trustee Qualifications.

Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience, (ii) qualifications, (iii) attributes and (iv) skills. Mr. Nielsen has over twenty-three years of experience in the investment management and brokerage business including a focus in compliance, legal and regulatory oversight and possesses a strong understanding of the regulatory framework under which investment companies must operate. Since 2010, Thomas Sarkany has been the President of TTS Consultants, LLC, and since December 2022 has been the President of TTS Associates, Inc., each a financial services firm and from 1994 through 2010 held various roles at Value Line, Inc. (a publicly held company providing financial research, publications and money management services to retail and institutional investors), including Director of Marketing and Asset Management, Director of Index Licensing, and member of the Board of Directors. Anthony Lewis has been Chairman and CEO of The Lewis Group USA, an executive consulting firm, for the past ten years, and also serves as a Director, the Chairman of the Compensation Committee, and a Member of the Audit Committee of Torotel Inc. Keith Rhoades held various accounting roles at Union Pacific Railroad, including Senior Director of General Ledger/Financial Research. Randy Skalla has more than 20 years of investment management experience including serving as President of L5 Enterprises, Inc. since 2001 and from 2001 through 2017 was a member of the Orizon Investment Counsel Board. The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The Board of Trustees has established three standing board committees – the Audit Committee, the Compensation Committee, and the Nominating Committee. All Independent Trustees are members of the Audit Committee, Compensation Committee and the Nominating Committee. Inclusion of all Independent Trustees as members of all three standing committees allows all such Trustees to participate

in the full range of the Board of Trustees' oversight duties, including oversight of risk management processes.

Trustees and Officers

The Trustees and the officers of the Trust are listed below with their addresses, present positions with the Trust and principal occupations over at least the last five years. The business address of each Trustee and Officer is 225 Pictoria Drive, Suite 450, Cincinnati, OH 45246. All correspondence to the Trustees and Officers should be directed to c/o Ultimus Fund Solutions, LLC, P.O. Box 541150, Omaha, Nebraska 68154.

* The term of office for each Trustee and Officer listed above will continue indefinitely.
 ** As of May 31, 2024, the Trust was comprised of 24 active portfolios managed by unaffiliated investment advisers. The term “Fund Complex” applies only to the Fund and not any other series of the Trust. The Fund does not hold itself out as related to any other series within the Trust for investment purposes, nor does it share the same investment adviser with any other series.

Board Committees

Audit Committee. The Board has an Audit Committee, which is comprised of the Independent Trustees. The Audit Committee reviews financial statements and other audit-related matters for the Fund. The Audit Committee also holds discussions with management and with the Fund’s independent auditor concerning the scope of the audit and the auditor’s independence and will meet at least four times annually. During the fiscal year ended May 31, 2024, the Audit Committee met ten times.

Nominating Committee. The Board has a Nominating Committee, which is comprised of the Independent Trustees. The Nominating Committee is responsible for seeking and reviewing candidates for consideration as nominees for the position of trustee and meets only as necessary. The Nominating Committee generally will not consider shareholder nominees.

Compensation Committee. The Board has a Compensation Committee, which is comprised of the Independent Trustees. The role of the Compensation Committee is to oversee the evaluation of, and review and approve compensation for, the Independent Trustees. The Compensation Committee will generally meet annually.

Trustee Compensation

Each Trustee will receive a quarterly fee of \$21,250 (the “Trustee Fee”) to be paid at the beginning of each calendar quarter, allocated among each of the various portfolios comprising the Trust. Each Trustee will also receive reimbursement for any reasonable expenses incurred attending the regular quarterly meetings of the Trust. In addition to the Trustee Fee, the Audit Committee Chairman will receive an additional quarterly fee of \$4,000 and the Chairman of the Trust will receive an additional quarterly fee of \$5,250. For special in-person meetings, each Trustee will receive a \$2,500 special in-person meeting fee, as well as reimbursement for any reasonable expenses incurred attending the special in-person meeting, which fees will generally be paid by the Adviser requesting the special in-person meeting. None of the executive officers will receive compensation from the Trust.

The following table details the amount of compensation the Trustees received from the Fund during the year ended May 31, 2024.

Name	The Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From the Fund Complex*** Paid to Trustees
Thomas T. Sarkany	\$4,598	None	None	\$4,598
Anthony Lewis	\$4,598	None	None	\$4,598
Keith Rhoades*	\$5,463	None	None	\$5,463
Randy Skalla	\$4,598	None	None	\$4,598
Brian Nielsen**	\$5,734	None	None	\$5,734

*Mr. Rhoades also serves as chairman of the Audit Committee.

**Mr. Nielsen also serves as Chairman of the Board of Trustees.

***There are currently multiple series comprising the Trust. Trustees’ fees will be allocated equally to each series in the Trust. The term “Fund Complex” refers only to the Fund and not to any other series of the Trust. For the fiscal year ended May 31, 2024, aggregate independent Trustees’ fees were \$462,000.

Trustee Ownership

The following table indicates the dollar range of equity securities that each Trustee beneficially owned in the Fund and other series of the Trust as of December 31, 2023.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies
Thomas Sarkany	None	None
Anthony Lewis	None	None
Keith Rhoades	None	None
Randal Skalla	None	None
Brian Nielsen	None	None

As of December 31, 2023, the Trustees and officers, as a group, owned less than 1.00% of the Fund’s outstanding shares and the Fund Complex’s outstanding shares.

Control Persons and Principal Shareholders

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of the Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of the Fund or acknowledges the existence of control. A controlling person possesses the ability to control the outcome of matters submitted for shareholder vote by the Fund.

As of September 3, 2024, the following persons owned, beneficially or of record, 5% or more of a Class of shares of the Fund.

<u>Name of Shareholder</u>	<u>% Of Share Class Owned</u>
<u>Class I Shares</u>	
Interactive Brokers LLC 2 Pickwick Plaza Greenwich, CT 06830	10.60%
Charles Schwab & Co. Inc. Special Custody Account for the Exclusive Benefit of Customers ATTN: Mutual Funds Operations 101 Montgomery Street San Francisco, CA 94106	7.35%

Investment Adviser

As stated in the Prospectus, investment advisory services are provided to the Fund by KKM Financial LLC, located at 141 W. Jackson Blvd., Suite 1711 Chicago, IL 60604, pursuant to an Investment Advisory Agreement (the “Advisory Agreement”). The Adviser is 99.5% owned by Killir Kapital Management, LLC along with a 0.5% ownership by Matt Franz. Subject to such policies as the Board of Trustees may determine, the Adviser is ultimately responsible for investment decisions for the Fund. Pursuant to the terms of the Advisory Agreement, the Adviser provides the Fund with such investment advice and supervision as it deems necessary for the proper supervision of the Fund’s investments.

After an initial period of two years, the Advisory Agreement will continue in effect from year to year only if such continuance is specifically approved at least annually by the Board of Trustees or by vote of a majority of the Fund’s outstanding voting securities and by a majority of the trustees who are not parties to the Advisory Agreement or interested persons of any such party, at a meeting called for the purpose of voting on the Advisory Agreement. The Advisory Agreement is terminable without penalty by the Trust on behalf of the Fund upon 60 days’ prior written notice when authorized either by a majority vote of the Fund’s shareholders or by a vote of a majority of the Board of Trustees, or by the Adviser upon 60 days’ prior written notice, and will automatically terminate in the event of its “assignment” (as defined in the 1940 Act). The Advisory Agreement provides that the Adviser, under such agreement, shall not be liable for any error of judgment or mistake of law or for any loss arising out of any investment or for any act or omission in the execution of portfolio transactions for the Fund, except for willful misfeasance, bad faith or negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.

Under the Advisory Agreement, the Adviser, under the supervision of the Board, agrees to invest the assets of the Fund in accordance with applicable law and the investment objectives, policies and restrictions set forth in the Fund's current Prospectus and Statement of Additional Information, and subject to such further limitations as the Trust may from time to time impose by written notice to the Adviser. The Adviser shall act as the investment advisor to the Fund and, as such shall (i) obtain and evaluate such information relating to the economy, industries, business, securities markets and securities as it may deem necessary or useful in discharging its responsibilities here under, (ii) formulate a continuing program for the investment of the assets of the Fund in a manner consistent with its investment objective, policies and restrictions, and (iii) determine from time to time securities to be purchased, sold or retained by the Fund, and implement those decisions, including the selection of entities with or through which such purchases or sales are to be effected; provided, that the Adviser will place orders pursuant to its investment determinations either directly with the issuer or with a broker or dealer, and if with a broker or dealer, (a) will attempt to obtain the best price and execution of its orders, and (b) may nevertheless in its discretion purchase and sell portfolio securities from and to brokers who provide the Adviser with research, analysis, advice and similar services and pay such brokers in return a higher commission or spread than may be charged by other brokers. The Adviser also provides the Fund with all necessary office facilities and personnel for servicing the Fund's investments, compensates all officers, Trustees and employees of the Trust who are officers, directors or employees of the Adviser, and all personnel of the Fund or the Adviser performing services relating to research, statistical and investment activities. The Advisory Agreement was approved by the Board of the Trust, including by a majority of the Independent Trustees, at a meeting held on April 24-25, 2014, and thereafter most recently renewed by the Board of the Trust, including by a majority of the Independent Trustees, at a meeting held on April 11, 2024.

In addition, the Adviser, directly subject to the supervision of the Board of Trustees, provides the management services necessary for the operation of the Fund and such additional administrative services as reasonably requested by the Board of Trustees, including a majority of the Independent Trustees. These services include providing such office space, office equipment and office facilities as are adequate to fulfill the Adviser's obligations under the Advisory Agreement; assisting the Trust in supervising relations with custodians, transfer and pricing agents, accountants, underwriters and other persons dealing with the Fund; assisting in preparing all general shareholder communications and conducting shareholder relations; maintaining the Fund's records and the registration of the Fund's shares under federal securities laws and making necessary filings under state securities laws; developing management and shareholder services for the Fund; and furnishing reports, evaluations and analyses on a variety of subjects to the Trustees.

Pursuant to the Advisory Agreement, the Fund pays the Adviser a management fee at the annual rate of 0.50% of the Essential 40 Stock Fund's average daily net assets. The fee is computed daily and payable monthly. The Adviser has agreed contractually to waive its management fee and to reimburse operating expenses (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses such as litigation at least until September 30, 2025, such that net annual fund operating expenses of the Fund do not exceed the percentages in the table below.

The Adviser is permitted to receive reimbursement from the Fund for fees it waived and Fund expenses it paid, subject to the limitation that: (1) the reimbursement for fees and expenses will be made only if payable within three years from the date the fees and expenses were initially waived or reimbursed; and (2) the reimbursement may not be made if it would cause the expense limitation in effect at the time of the waiver or currently in effect, whichever is lower, to be exceeded.

Essential 40 Stock Fund	Expense Limitation
Class I	0.70%

Expenses not expressly assumed by the Adviser under the Advisory Agreement are paid by the Fund. Under the terms of the Advisory Agreement, the Fund is responsible for the payment of the following expenses among others: (a) the fees payable to the Adviser, (b) the fees and expenses of Trustees who are not affiliated persons of the Adviser or Distributor (as defined under the section entitled (“The Distributor”) (c) the fees and certain expenses of the Custodian (as defined under the section entitled “Custodian”) and Transfer and Dividend Disbursing Agent (as defined under the section entitled “Transfer Agent”), including the cost of maintaining certain required records of the Fund and of pricing the Fund’s shares, (d) the charges and expenses of legal counsel and independent accountants for the Fund, (e) brokerage commissions and any issue or transfer taxes chargeable to the Fund in connection with its securities transactions, (f) all taxes and corporate fees payable by the Fund to governmental agencies, (g) the fees of any trade association of which the Fund may be a member, (h) the cost of share certificates representing shares of the Fund, (i) the cost of fidelity and liability insurance, (j) the fees and expenses involved in registering and maintaining registration of the Fund and of their shares with the SEC, qualifying its shares under state securities laws, including the preparation and printing of the Fund’s registration statements and prospectuses for such purposes, (k) all expenses of shareholders and Trustees’ meetings (including travel expenses of trustees and officers of the Trust who are directors, officers or employees of the Adviser) and of preparing, printing and mailing reports, proxy statements and prospectuses to shareholders in the amount necessary for distribution to the shareholders, and (l) litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Trust’s business.

For the fiscal years ended May 31, the Fund paid the following advisory fees to the Adviser pursuant to the Advisory Agreement, of which the Adviser waived or recouped the amount set forth in the following table.

Fiscal Year Ended	Advisory Fee	Recoument (Waiver)	Expense (Reimbursement)	Advisory Fee after Waiver
May 31, 2022	\$184,189	(\$184,189)	(\$33,928)	\$0
May 31, 2023	\$196,574	(\$196,574)	(\$11,902)	\$0
May 31, 2024	\$291,167	(\$205,172)	\$0	\$85,995

Portfolio Managers

The following section provides information regarding the Portfolio Managers, other accounts managed by the Portfolio Managers, compensation, material conflicts of interests, and any ownership of securities in the Fund.

Jeff Kilburg. Mr. Kilburg is the CEO & Founder of KKM Financial, LLC (“KKM”) a boutique registered investment adviser based in Chicago, IL. Mr. Kilburg started his career at the Chicago Board Options Exchange (“CBOE”) in Chicago. After learning equity options from Mercury Founders Jon and Pete Najarian at the CBOE, Mr. Kilburg was offered an opportunity in the Chicago Board of Trade (“CBOT”) bond option pit. Subsequently, he joined a specialist group in the 30-year pit, JLS Group. In 2012, he transitioned his floor operations into a SEC registered investment advisory firm. Mr. Kilburg is a graduate of the Mendoza College of Business at The University of Notre Dame as he was a recipient of a four-year football scholarship under Lou Holtz.

Dan Deming. Mr. Deming serves as Managing Director at KKM Financial, LLC (“KKM”). Mr. Deming’s responsibilities include managing the day-to-day operations of the firm which include; developing and executing the firm’s business plan, strategic initiatives, advisory group oversight, technology, and compliance. Mr. Deming has over 30 years of market experience. Prior to KKM, Mr. Deming served as investment advisor representative for Equity Armor Investments, LLC. His responsibilities included overseeing client accounts, portfolio construction, and supporting the sub-advising team. Mr. Deming started his career at the CBOE (Chicago Board Options Exchange) as a trader in the S&P 100 Index (OEX) pit in April of 1988. In 2008, Mr. Deming transitioned into the CBOE’s VIX Index option pit. During his time at the CBOE, Mr. Deming also served on the Arbitration Committee. Over the past 10 years, Mr. Deming has become one of the options industry’s more recognized faces in the media, making regular appearances on Bloomberg TV, TD Ameritrade Network, CNN, BNN Bloomberg, Sky News Business, Fox Business News, Business First AM, and CBOE TV. Several news outlets such as; CNBC, Reuters, Wall Street Journal, Bloomberg News, the AP and Dow Jones press, contact Mr. Deming on a regular basis to provide written and quoted market commentary. Working as a liaison with the CBOE, representing both the exchange and his firm, Mr. Deming has served as a guest panelist for several volatility based derivatives symposiums and international trading conferences. Mr. Deming is a graduate of Michigan State University and holds a Series 65 license.

Other Accounts Managed by the Portfolio Manager

The table below identifies, for the Portfolio Manager of the Fund, the number of accounts managed (excluding the Fund) and the total assets in such accounts, within each of the following categories: registered investment companies, other pooled investment vehicles, and other accounts. To the extent that the advisory fees for any of these accounts are based on account performance, this information is reflected in separate tables below. Asset amounts are approximate as of the date of this SAI, and have been rounded. The following table lists the number and types of accounts managed by the portfolio manager and assets under management in those accounts as of May 31, 2024.

Portfolio Manager	Registered Investment Companies (excluding the Fund)		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets in the Accounts	Number of Accounts	Total Assets in the Accounts	Number of Accounts	Total Assets in the Accounts
Jeff Kilburg	0	\$0	0	\$0	38	\$45 million
Dan Deming	0	\$0	0	\$0	195	\$144 million

Material Conflicts of Interest

Actual or apparent material conflicts of interest may arise when a Portfolio Manager has day-to-day management responsibilities with respect to more than one investment account or in other circumstances. Portfolio Managers who manage other investment accounts in addition to the Fund may be presented with the potential conflicts described below.

The Adviser is registered with the U.S. Securities and Exchange Commission as an investment adviser under the Investment Advisers Act of 1940. The Adviser does not currently offer separately managed accounts or other investment fund products in addition to the Fund that would present material conflicts of interest, however, the Adviser may offer separately managed accounts in addition to the Fund in the future.

Portfolio Manager’s Compensation

The Portfolio Managers’ compensation is a fixed salary that is set by reference to industry standards. Bonuses paid to the Portfolio Managers are based on the profitability of the Adviser.

Portfolio Managers' Ownership of the Fund

The following table shows the dollar range of equity securities beneficially owned by the portfolio manager of the Fund as of May 31, 2024:

Name of Portfolio Manager	Dollar Range of Equity Securities in Managed Fund
Jeff Kilburg	over \$1 million
Dan Deming	\$10,001 to \$50,000

Other Service Providers

Administrator

Pursuant to the Fund Services Agreement (the "Administration Service Agreement"), Ultimus Fund Solutions, LLC ("UFS") (formerly known as Gemini Fund Services, LLC), 4221 North 203rd Street, Suite 100, Elkhorn, NE 68022 (the "Administrator"), acts as administrator for the Fund, subject to the supervision of the Board. UFS is primarily in the business of providing administrative, fund accounting and transfer agent services to retail and institutional mutual funds. UFS is an affiliate of the Distributor. UFS may provide persons to serve as officers of the Fund. Such officers may be directors, officers or employees of UFS or its affiliates.

The Administration Service Agreement is terminable by the Board or UFS on 60 days' prior written notice and may be assigned provided the non-assigning party provides prior written consent. This Agreement provides that in the absence of willful misfeasance, bad faith or gross negligence on the part of UFS or reckless disregard of its obligations thereunder, UFS shall not be liable for any action or failure to act in accordance with its duties thereunder.

Under the Administration Service Agreement, UFS provides facilitating administrative services, including: (i) providing services of persons competent to perform such administrative and clerical functions as are necessary to provide effective administration of the Fund; (ii) facilitating the performance of administrative and professional services to the Fund by others, including the Fund's Custodian; (iii) preparing, but not paying for, the periodic updating of the Fund's Registration Statement, Prospectuses and Statement of Additional Information in conjunction with Fund counsel, including the printing of such documents for the purpose of filings with the SEC and state securities administrators, and preparing reports to the Fund's shareholders and the SEC; (iv) preparing in conjunction with Fund counsel, but not paying for, all filings under the securities or "Blue Sky" laws of such states or countries as are designated by the Distributor, which may be required to register or qualify, or continue the registration or qualification, of the Fund and/or their shares under such laws; (v) preparing notices and agendas for meetings of the Board and minutes of such meetings in all matters required by the 1940 Act to be acted upon by the Board; and (vi) monitoring daily and periodic compliance with respect to all requirements and restrictions of the 1940 Act, the Internal Revenue Code and the Prospectus.

For the services rendered to the Fund by the Administrator, the Fund pays the Administrator the greater of an annual minimum fee or an asset based fee, which scales downward based upon net assets for fund administration, fund accounting and transfer agency services.

The following table shows the administrative service fees incurred by the Fund to the Administrator.

	Fees incurred to the Administrator
Fiscal year ended May 31, 2024	\$76,012
Fiscal year ended May 31, 2023	\$57,099
Fiscal year ended May 31, 2022	\$55,448

Fund Accounting

UFS, pursuant to the Administration Service Agreement, provides the Fund with accounting services, including: (i) daily computation of net asset value; (ii) maintenance of security ledgers and books and records as required by the 1940 Act; (iii) production of the Fund’s listing of portfolio securities and general ledger reports; (iv) reconciliation of accounting records; (v) calculation of yield and total return for the Fund; (vi) maintaining certain books and records described in Rule 31a-1 under the 1940 Act, and reconciling account information and balances among the Fund’s custodian or Adviser; and (vii) monitoring and evaluating daily income and expense accruals, and sales and redemptions of shares of the Fund. The Fund also pays the Administrator for any out-of-pocket expenses.

The following table shows the fund accounting fees incurred by the Fund to the Administrator.

	Fees incurred to the Administrator
Fiscal year ended May 31, 2024	\$31,567
Fiscal year ended May 31, 2023	\$29,142
Fiscal year ended May 31, 2022	\$28,019

Transfer Agent

UFS, 4221 North 203rd Street, Suite 100, Elkhorn, NE 68022, acts as transfer, dividend disbursing, and shareholder servicing agent for the Fund pursuant to a written agreement with the Fund. Under the agreement, UFS is responsible for administering and performing transfer agent functions, dividend distribution, shareholder administration, and maintaining necessary records in accordance with applicable rules and regulations.

The following table shows the transfer agent fees incurred by the Fund to the Administrator.

	Fees incurred to the Administrator
Fiscal year ended May 31, 2024	\$33,115
Fiscal year ended May 31, 2023	\$30,444
Fiscal year ended May 31, 2022	\$32,182

Custodian

U.S. Bank, N. A. serves as the custodian of the Fund’s assets pursuant to a Custody Agreement by and between the Custodian and the Trust on behalf of the Fund. The Custodian’s responsibilities include safeguarding and controlling the Fund’s cash and securities, handling the receipt and delivery of securities, and collecting interest and dividends on the Fund’s investments. Pursuant to the Custody Agreement, the Custodian also maintains original entry documents and books of record and general ledgers; posts cash receipts and disbursements; and records purchases and sales based upon communications from the Adviser. The Fund may employ foreign sub-custodians that are approved by the Board to hold foreign assets.

Compliance Services

Northern Lights Compliance Services, LLC (“NLCS”), 4221 North 203rd Street, Suite 100, Elkhorn, NE 68022, an affiliate of UFS and the Distributor, provides a Chief Compliance Officer to the Trust as well as related compliance services pursuant to a consulting agreement between NLCS and the Trust. The Fund pays a compliance service fee to NLCS.

The following table shows the fees incurred by the Fund to NLCS for compliance services.

	Fees incurred to NLCS
Fiscal year ended May 31, 2024	\$24,217
Fiscal year ended May 31, 2023	\$24,739
Fiscal year ended May 31, 2022	\$21,199

Legal Counsel

Alston & Bird, LLP, 950 F Street NW, Washington, D.C. 20004, serves as counsel to the Fund. Blank Rome LLP, 1271 Avenue of the Americas, New York, NY 10020, serves as counsel to the Independent Trustees.

Independent Registered Public Accounting Firm

RSM US LLP, 555 17th Street, Suite 1200, Denver, CO 80202 serves as the independent registered public accounting firm of the Fund.

Distribution of Fund Shares

Northern Lights Distributors, LLC, located at 4221 North 203rd Street, Suite 100, Elkhorn, NE 68022 (the “Distributor”) serves as the principal underwriter and national distributor for the shares of the Fund pursuant to an Underwriting Agreement with the Trust (the “Underwriting Agreement”). The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934 and each state’s securities laws and is a member of FINRA. The offering of the Fund’s shares is continuous. The Underwriting Agreement provides that the Distributor, as agent in connection with the distribution of Fund shares, will use reasonable efforts to facilitate the sale of the Fund’s shares.

The Underwriting Agreement has an initial term of two years and will continue in effect only if such continuance is specifically approved at least annually by the Board of Trustees or by vote of a majority of the Fund’s outstanding voting securities and, in either case, by a majority of the trustees who are not parties to the Underwriting Agreement or “interested persons” (as defined in the 1940 Act) of any such party. The Underwriting Agreement is terminable without penalty by the Trust on behalf of the Fund on 60 days’ notice when authorized either by a majority vote of the Fund’s outstanding voting securities or by vote of a majority of the Board of Trustees, including a majority of the trustees who are not “interested persons” (as defined in the 1940 Act) of the Trust, or by the Distributor on 60 days’ notice, and will automatically terminate in the event of its “assignment” (as defined in the 1940 Act).

The following table sets forth the total compensation received by the Distributor from the Fund during the fiscal year ended May 31, 2024.

<i>Fund</i>	<i>Net Underwriting Discounts and Commissions</i>	<i>Compensation on Redemptions and Repurchases</i>	<i>Brokerage Commissions</i>	<i>Other Compensation</i>
Essential 40 Stock Fund	\$0	\$0	\$0	*

Portfolio Transactions and Brokerage Allocation

Pursuant to the Advisory Agreement, the Adviser determines which securities are to be purchased and sold by the Fund and which broker-dealers are eligible to execute the Fund’s portfolio transactions. Purchases and sales of securities in the OTC market will generally be executed directly with a “market-maker” unless, in the opinion of the Adviser, a better price and execution can otherwise be obtained by using a broker for the transaction.

Purchases of portfolio securities for the Fund will be effected through broker-dealers (including banks) that specialize in the types of securities that the Fund will be holding, unless better executions are available elsewhere. Dealers usually act as principal for their own accounts. Purchases from dealers will include a spread between the bid and the asked price. If the execution and price offered by more than one dealer are comparable, the order may be allocated to a dealer that has provided research or other services as discussed below.

In placing portfolio transactions, the Adviser will use reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services available will be considered in making these determinations, such as the size of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities and other factors. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers that furnish or supply research and statistical information to the Adviser that they may lawfully and appropriately use in their investment advisory capacities, as well as provide other brokerage services in addition to execution services. The Adviser considers such information, which is in addition to and not in lieu of the services required to be performed by it under its Advisory Agreement with the Fund, to be useful in varying degrees, but of indeterminable value.

While it is the Fund's general policy to first seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for the Fund, weight is also given to the ability of a broker-dealer to furnish brokerage and research services to the Fund or to the Adviser, even if the specific services are not directly useful to the Fund and may be useful to the Adviser in advising other clients. In negotiating commissions with a broker or evaluating the spread to be paid to a dealer, the Fund may therefore pay a higher commission or spread than would be the case if no weight were given to the furnishing of these supplemental services, provided that the amount of such commission or spread has been determined in good faith by the Adviser to be reasonable in relation to the value of the brokerage and/or research services provided by such broker-dealer. The standard of reasonableness is to be measured in light of the Adviser's overall responsibilities to the Fund.

Investment decisions for the Fund may or may not be made independently from those of other client accounts of the Adviser. In certain instances, investment decisions will be made similar to other accounts managed. In the case where the Fund uses similar strategies, applicable procedures will be taken to ensure trading allocations will be handled fairly and abide by all appropriate rules and regulations. Nevertheless, it is possible that at times identical securities will be acceptable for both the Fund and one or more of such client accounts. In such event, the position of the Fund and such client account(s) in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of these client accounts seek to acquire the same security as the Fund at the same time, the Fund may not be able to acquire as large a portion of such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such client accounts simultaneously purchases or sells the same security that the Fund is purchasing or selling, each day's transactions in such security will be allocated between the Fund and all such client accounts in a manner deemed equitable by the Adviser, taking into account the respective sizes of the accounts and the amount being purchased or sold. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Fund is concerned. In other cases, however, it is believed that the ability of the Fund to participate in volume transactions may produce better executions for the Fund. Notwithstanding the above, the Adviser may execute buy and sell orders for accounts and take action in performance of their duties with respect to any of their accounts that may differ from actions taken with

respect to another account, so long as the Adviser shall, to the extent practical, allocate investment opportunities to accounts, including the Fund, over a period of time on a fair and equitable basis and in accordance with applicable law.

The Fund is required to identify any securities of its “regular brokers or dealers” that the Fund has acquired during its most recent fiscal year. The Fund is also required to identify any brokerage transactions during its most recent fiscal year that were directed to a broker because of research services provided, along with the amount of any such transactions and any related commissions paid by the Fund.

Brokers or dealers executing a portfolio transaction on behalf of the Fund may receive a commission in excess of the amount of commission another broker or dealer would have charged for executing the transaction if the Adviser determines in good faith that such commission is reasonable in relation to the value of brokerage, research and other services provided to the Fund. In allocating portfolio brokerage, the Adviser may select brokers or dealers who also provide brokerage, research and other services to other accounts over which the Adviser exercises investment discretion. Some of the services received as the result of Fund transactions may primarily benefit accounts other than the Fund, while services received as the result of portfolio transactions effected on behalf of those other accounts may primarily benefit the Fund.

The following table shows the broker commissions paid by the Fund during the fiscal years indicated.

	Brokerage Commissions
Fiscal year ended May 31, 2024	\$4,774
Fiscal year ended May 31, 2023	\$10,353
Fiscal year ended May 31, 2022	\$7,165

Portfolio Turnover

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (i) the lesser of purchases or sales of portfolio securities for the fiscal year by (ii) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in the Fund’s portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to above-average transaction costs, could generate capital gains that must be distributed to shareholders as short-term capital gains taxed at ordinary income tax rates (currently as high as 37%) and could increase brokerage commission costs. To the extent that the Fund experiences an increase in brokerage commissions due to a higher portfolio turnover rate, the performance of the Fund could be negatively impacted by the increased expenses incurred by the Fund and may result in a greater number of taxable transactions.

The table below shows the portfolio turnover rate for the Fund during the fiscal years indicated.

	Portfolio Turnover
Fiscal year ended May 31, 2024	24%
Fiscal year ended May 31, 2023	55%

Code of Ethics

The Fund, the Adviser, and the Distributor have each adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These Codes permit, subject to certain conditions, personnel of the Adviser, and Distributor to invest in securities that may be purchased or held by the Fund.

Proxy Voting Procedures

The Board has adopted Proxy Voting Policies and Procedures (“Policies”) on behalf of the Trust, which delegate the responsibility for voting proxies of securities held by the Fund to the Adviser, subject to the Board’s continuing oversight. The Policies require that the Adviser vote proxies received in a manner consistent with the best interests of the Fund and its shareholders. The Policies also require the Adviser to present to the Board, at least annually, the Adviser’s Proxy Policies and a record of each proxy voted by the Adviser on behalf of the Fund, including a report on the resolution of all proxies identified by the Adviser as involving a conflict of interest. Notwithstanding this delegation of responsibilities, however, the Fund retains the right to vote proxies relating to its portfolio securities. A copy of the Adviser’s Proxy Voting Policy is attached hereto as Appendix A.

More Information. The actual voting records relating to portfolio securities during the 12-month period ended June 30 will be available without charge, upon request, by calling toll-free, 1-800-SEC-0330 or by accessing the SEC’s website at www.sec.gov.

Anti-Money Laundering Compliance Program

The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (“USA PATRIOT Act”). To ensure compliance with this law, the Trust’s Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program. The Trust’s CCO serves as its Anti-Money Laundering Compliance Officer.

Procedures to implement the Program include, but are not limited to, determining that the Fund’s Distributor and Transfer Agent have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a providing a complete and thorough review of all new opening account applications. The Trust will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

As a result of the Program, the Trust may be required to “freeze” the account of a shareholder if the shareholder appears to be involved in suspicious activity or if certain account information matches information on government lists of known terrorists or other suspicious persons, or the Trust may be required to transfer the account or proceeds of the account to a governmental agency.

Portfolio Holdings Information

The Trust has adopted policies and procedures that govern the disclosure of the Fund’s portfolio holdings. These policies and procedures are designed to ensure that such disclosure is in the best interests of Fund shareholders.

It is the Trust’s policy to: (1) ensure that any disclosure of portfolio holdings information is in the best interest of Trust shareholders; (2) protect the confidentiality of portfolio holdings information; (3) have procedures in place to guard against personal trading based on the information; and (4) ensure that the disclosure of portfolio holdings information does not create conflicts between the interests of the Trust’s shareholders and those of the Trust’s affiliates.

The Fund discloses its portfolio holdings in regulatory filings and shareholder reports, as required by federal and state securities laws and may disclose portfolio holdings information in response to requests by governmental authorities. The Fund discloses its portfolio holdings directly to shareholders by mailing said annual and semi-annual shareholder reports to shareholders approximately two months after

the end of the fiscal year and semi-annual period. In addition, the Fund files its portfolio holdings in periodic reports with the SEC on Forms N-CSR, on a seventy day lag, and NPORT on a sixty day lag at the end of the relevant quarter/semi-annual or annual period. These filings are available to the public on the SEC's website at SEC.gov.

The Fund may choose to make portfolio holdings information available to rating agencies such as Lipper, Morningstar or Bloomberg earlier and more frequently on a confidential basis.

Under limited circumstances, as described below, the Fund's portfolio holdings may be disclosed to, or known by, certain third parties in advance of their filing with the Securities and Exchange Commission on Form N-CSR or Form N-Q. In each case, a determination has been made that such advance disclosure is supported by a legitimate business purpose and that the recipient is subject to a duty to keep the information confidential.

The Adviser. Personnel of the Adviser, including personnel responsible for managing the Fund's portfolio, may have full daily access to Fund portfolio holdings since that information is necessary in order for the Adviser to provide their management, administrative, and investment services to the Fund. As required for purposes of analyzing the impact of existing and future market changes on the prices, availability, demand and liquidity of such securities, as well as for the assistance of portfolio managers in the trading of such securities, Adviser personnel may also release and discuss certain portfolio holdings with various broker-dealers.

Ultimus Fund Solutions, LLC. Ultimus Fund Solutions, LLC is the transfer agent, fund accountant and administrator for the Fund; therefore, its personnel have full daily access to the Fund's portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

Northern Lights Compliance Services, LLC. Northern Lights Compliance Services, LLC provides a consulting services to the Fund as well as related compliance services; therefore, its personnel have full daily access to the Fund's portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

U.S. Bank, N. A. U.S. Bank, N. A. is custodian for the Fund; therefore, its personnel have full daily access to the Fund's portfolio holdings since that information is necessary in order for them to provide the agreed-upon services for the Trust.

RSM US LLP. RSM US LLP is the Fund's independent registered public accounting firm; therefore, its personnel have access to the Fund's portfolio holdings in connection with auditing of the Fund's annual financial statements and providing other audit, tax and related services for the Fund.

Alston & Bird, LLP. Alston & Bird, LLP is counsel to the Fund; therefore, its personnel have access to the Fund's portfolio holdings in connection with review of the Fund's annual and semi-annual shareholder reports and SEC filings.

Blank Rome LLP. Blank Rome LLP is counsel to the Independent Trustees.

Additions to List of Approved Recipients

The Trust's Chief Compliance Officer is the person responsible, and whose prior approval is required, for any disclosure of the Fund's portfolio securities at any time or to any persons other than those

described above. In such cases, the recipient must have a legitimate business need for the information and must be subject to a duty to keep the information confidential. There are no ongoing arrangements in place with respect to the disclosure of portfolio holdings. In no event shall the Fund, the Adviser, or any other party receive any direct or indirect compensation in connection with the disclosure of information about the Fund's portfolio holdings.

Compliance With Portfolio Holdings Disclosure Procedures

The Trust's Chief Compliance Officer will report periodically to the Board with respect to compliance with the Fund's portfolio holdings disclosure procedures, and from time to time will provide the Board any updates to the portfolio holdings disclosure policies and procedures.

There is no assurance that the Trust's policies on disclosure of portfolio holdings will protect the Fund from the potential misuse of holdings information by individuals or firms in possession of that information.

Determination of Net Asset Value

As indicated in the Prospectus under the heading "Share Price," the net asset value ("NAV") of the Fund's shares, by class, is determined by dividing the total value of the Fund's portfolio investments and other assets, less any liabilities, by the total number of shares outstanding of the Fund, by class.

Generally, the Fund's domestic securities (including underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges) are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. The Board has retained responsibility for all fair value determinations. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Fund's Board with the assistance of a fair value team, composed of one or more officers from each of the (i) Trust, (ii) administrator, and (iii) Adviser, in accordance with procedures approved by the Board and as further described below. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market.

Certain securities or investments for which daily market quotes are not readily available may be fair valued pursuant to guidelines established by the Board, with reference to other securities or indices. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Short-term investments having a maturity of 60 days or less may be generally valued at amortized cost when it approximates fair value.

Exchange traded options are valued at the last quoted sales price or, in the absence of a sale, at the mean between the current bid and ask prices on the exchange on which such options are traded. Futures and options on futures are valued at the settlement price determined by the exchange. Other securities for which market quotes are not readily available are valued at fair value as determined in good faith by the Board with the assistance of the fair value team. Swap agreements and other derivatives are generally

valued daily based upon quotations from market makers or by a pricing service in accordance with the valuation procedures approved by the Board.

Under certain circumstances, the Fund may use an independent pricing service to calculate the fair market value of foreign equity securities on a daily basis by applying valuation factors to the last sale price or the mean price as noted above. The fair market values supplied by the independent pricing service will generally reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or the value of other instruments that have a strong correlation to the fair-valued securities. The independent pricing service will also take into account the current relevant currency exchange rate. A security that is fair valued may be valued at a price higher or lower than actual market quotations or the value determined by other funds using their own fair valuation procedures. Because foreign securities may trade on days when Fund shares are not priced, the value of securities held by the Fund can change on days when Fund shares cannot be redeemed or purchased. In the event that a foreign security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which it trades closed before the Fund's calculation of NAV), the security will be valued at its fair market value as determined in good faith by the Board with the assistance of the fair value team in accordance with procedures approved by the Board as discussed below. Without fair valuation, it is possible that short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that it will prevent dilution of the Fund's NAV by short-term traders. In addition, because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of these portfolio securities may change on days when you may not be able to buy or sell Fund shares.

Investments initially valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services. As a result, the NAV of the Fund's shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the New York Stock Exchange is closed and an investor is not able to purchase, redeem or exchange shares.

Fund shares are valued at the close of regular trading on the New York Stock Exchange (normally 4:00 p.m., Eastern time) (the "NYSE Close") on each day that the New York Stock Exchange is open. For purposes of calculating the NAV, the Fund normally use pricing data for domestic equity securities received shortly after the NYSE Close and does not normally take into account trading, clearances or settlements that take place after the NYSE Close. Domestic fixed income and foreign securities are normally priced using data reflecting the earlier closing of the principal markets for those securities. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of the security or the NAV determined earlier that day.

When market quotations are not readily available or deemed unreliable, the Fund may value securities at fair value as determined in good faith by the Board with the assistance of the fair value team, pursuant to procedures approved by the Board. Fair valuation may also be used by the Board if extraordinary events occur after the close of the relevant market but prior to the NYSE Close.

Purchase of Shares

Orders for shares received by the Fund in good order prior to the close of business on the NYSE on each day during such periods that the NYSE is open for trading are priced at NAV per share computed as of the close of the regular session of trading on the NYSE. Orders received in good order after the

close of the NYSE, or on a day it is not open for trading, are priced at the close of such NYSE on the next day on which it is open for trading at the next determined NAV or offering price per share.

Redemption of Shares

The Fund will redeem all or any portion of a shareholder's shares in the Fund when requested in accordance with the procedures set forth in the "Redemptions" section of the Prospectus. Under the 1940 Act, a shareholder's right to redeem shares and to receive payment therefore may be suspended at times:

- (a) when the NYSE is closed, other than customary weekend and holiday closings;
- (b) when trading on that exchange is restricted for any reason;
- (c) when an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Fund to fairly determine the value of its net assets, provided that applicable rules and regulations of the SEC (or any succeeding governmental authority) will govern as to whether the conditions prescribed in (b) or (c) exist; or
- (d) when the SEC by order permits a suspension of the right to redemption or a postponement of the date of payment on redemption.

In case of suspension of the right of redemption, payment of a redemption request will be made based on the NAV next determined after the termination of the suspension.

The Fund may purchase shares of certain series which charge a redemption fee to shareholders (such as the Fund) that redeem shares of the underlying fund within a certain period of time (such as one year). The fee is payable to the underlying fund. Accordingly, if the Fund were to invest in an underlying fund and incur a redemption fee as a result of redeeming shares in such underlying fund, the Fund would bear such redemption fee. The Fund will not, however, invest in shares of an underlying fund that is sold with a contingent deferred sales load.

Supporting documents in addition to those listed under "Redemptions" in the Prospectus will be required from executors, administrators, Trustees, or if redemption is requested by someone other than the shareholder of record. Such documents include, but are not restricted to, stock powers, Trust instruments, certificates of death, appointments as executor, certificates of corporate authority and waiver of tax required in some states when settling estates.

Under section 72.1021(a) of the Texas Property Code, initial investors in the Fund who are Texas residents may designate a representative to receive notices of abandoned property in connection with Fund shares. Texas shareholders who wish to appoint a representative should notify the Trust's Transfer Agent by writing to the address below to obtain a form for providing written notice to the Trust:

Essential 40 Stock Fund
c/o Ultimus Fund Solutions, LLC
4221 North 203rd Street, Suite 100
Elkhorn, Nebraska 68022

Tax Status

The following discussion is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. The tax considerations relevant to a specific shareholder depend upon its specific circumstances, and the following general summary does not attempt to discuss all potential tax considerations that could be relevant to a prospective shareholder with respect to the Fund or its investments. This general summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), the Federal Income Tax Regulations promulgated thereunder, and administrative and judicial

interpretations thereof as of the date hereof, all of which are subject to change (potentially on a retroactive basis).

The following discussion of tax consequences is for the general information of shareholders that are subject to tax. Shareholders that are IRAs or other qualified retirement plans are exempt from income taxation under the Code. All shareholders should consult a qualified tax advisor regarding their investment in the Fund.

The Fund has elected to qualify and intends to continue to qualify to be treated as a regulated investment company under Subchapter M of the Code, for each taxable year by complying with all applicable requirements regarding the source of its income, the diversification of its assets, and the timing and amount of its distributions. The Fund's policy is to distribute to its shareholders all of its investment company taxable income and any net realized capital gains for each fiscal year in a manner that complies with the distribution requirements of the Code, so that the Fund will not be subject to any federal income or excise taxes based on net income. However, the Board may elect to pay such excise taxes if it determines that payment is, under the circumstances, in the best interests of the Fund. If the Fund does not qualify as a regulated investment company, it may be taxed as a corporation.

In order to qualify as a regulated investment company under Subchapter M of the Code, the Fund must, among other things, derive at least 90% of its gross income each year from dividends, interest, payments with respect to loans of stock and securities, gains from the sale or other disposition of stock or securities or foreign currency gains related to investments in stock or securities, or other income (generally including gains from options, futures or forward contracts) derived with respect to the business of investing in stock, securities or currency, and net income derived from an interest in a qualified publicly traded partnership. The Fund must also satisfy the following two asset diversification tests. At the end of each quarter of each taxable year, (i) at least 50% of the value of the Fund's total assets must be represented by cash and cash items (including receivables), U.S. Government securities, the securities of other regulated investment companies, and other securities, with such other securities being limited in respect of any one issuer to an amount not greater than 5% of the market value of such Fund's total assets and not more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund's total assets may be invested in the securities of any one issuer (other than U.S. Government securities or the securities of other regulated investment companies), the securities of any two or more issuers (other than the securities of other regulated investment companies) that such Fund controls (by owning 20% or more of their outstanding voting stock) and that are determined to be engaged in the same or similar trades or businesses or related trades or businesses, or the securities of one or more qualified publicly traded partnerships. The Fund must also distribute each taxable year sufficient dividends to its shareholders to claim a dividends paid deduction equal to at least the sum of 90% of such Fund's investment company taxable income (which generally includes dividends, interest, and the excess of net short-term capital gain over net long-term capital loss) and 90% of such Fund's net tax-exempt interest, if any. Following the enactment of the Regulated Investment Company Act of 2010, if the Fund fails to satisfy these qualifying income and asset tests, and such failure was due to reasonable cause and not willful neglect, it may be permitted to "cure" such failures (and thereby not jeopardize its tax status as a regulated investment company) under certain circumstances.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any year (and such failure is not subject to cure as discussed above), it will be treated as a corporation for federal income tax purposes. Such that the Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of such Fund generally would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of such Fund.

In addition to the taxable year 90% distribution requirement described in the previous paragraph, and in order to avoid the imposition of a nondeductible 4% excise tax, the Fund must distribute (or be deemed to have distributed) by December 31 of each calendar year (i) at least 98% of its ordinary income for such year, (ii) at least 98.2% of the excess of its realized capital gains over its realized capital losses for the 12-month period ending on October 31 during such year, and (iii) any amounts from prior years that were not distributed and on which no federal income tax was paid. The Fund intends to declare and pay dividends and other distributions, as stated in the Prospectus.

Net investment income generally consists of interest and dividend income, less expenses. Net realized capital gains for a fiscal period are computed by taking into account any capital loss carryforward of the Fund.

Capital losses sustained and not used in a taxable year may be carried forward indefinitely to offset capital gains of the Fund in future years. There were no capital loss carry forwards during the fiscal year ended May 31, 2024.

Distributions of net investment income and net realized capital gains by the Fund will be taxable to shareholders whether made in cash or reinvested by the Fund in shares. Shareholders receiving a distribution from the Fund in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the NAV of a share of the Fund on the reinvestment date. Fund distributions also will be included in individual and corporate shareholders' income on which the alternative minimum tax may be imposed.

The Fund or the securities dealer effecting a redemption of the Fund's shares by a shareholder will be required to file information reports with the Internal Revenue Service ("IRS") with respect to distributions and payments made to the shareholder. In addition, the Fund will be required to withhold federal income tax on taxable dividends, redemptions and other payments made to accounts of individual or other non-exempt shareholders who have not furnished their correct taxpayer identification numbers and certain required certifications on the New Account application or with respect to which the Fund or the securities dealer has been notified by the IRS that the number furnished is incorrect or that the account is otherwise subject to withholding.

The Fund may receive dividend distributions from U.S. corporations. To the extent that the Fund receives such dividends and distributes them to its shareholders, and meets certain other requirements of the Code, corporate shareholders of the Fund may be entitled to the "dividends received" deduction. Availability of the deduction is subject to certain holding period and debt-financing limitations.

Distributions of net investment income and net short-term capital gains are taxable to shareholders as ordinary income or qualified dividend income. Under current law, distributions of certain qualified dividend income paid out of the Fund's investment company taxable income may be taxable to noncorporate shareholders at long-term capital gain rates, which are currently significantly lower than the highest rate that applies to ordinary income.

The Fund may be subject to foreign withholding taxes on dividends and interest earned with respect to securities of foreign corporations.

The use of hedging strategies, such as entering into futures contracts and forward contracts and purchasing options, involves complex rules that will determine the character and timing of recognition of the income received in connection therewith by the Fund. Income from foreign currencies (except certain gains therefrom that may be excluded by future regulations) and income from transactions in options, futures contracts and forward contracts derived by the Fund with respect to its business of

investing in securities or foreign currencies will qualify as permissible income under Subchapter M of the Code.

For accounting purposes, when the Fund purchases an option, the premium paid by the Fund is recorded as an asset and is subsequently adjusted to the current market value of the option. Any gain or loss realized by the Fund upon the expiration or sale of such options held by the Fund generally will be capital gain or loss.

Any security, option, or other position entered into or held by the Fund that substantially diminishes the Fund's risk of loss from any other position held by the Fund may constitute a "straddle" for federal income tax purposes. In general, straddles are subject to certain rules that may affect the amount, character and timing of the Fund's gains and losses with respect to straddle positions by requiring, among other things, that the loss realized on disposition of one position of a straddle be deferred until gain is realized on disposition of the offsetting position; that the Fund's holding period in certain straddle positions not begin until the straddle is terminated (possibly resulting in the gain being treated as short-term capital gain rather than long-term capital gain); and that losses recognized with respect to certain straddle positions, which would otherwise constitute short-term capital losses, be treated as long-term capital losses. Different elections are available to the Fund that may mitigate the effects of the straddle rules.

Certain options, futures contracts and forward contracts that are subject to Section 1256 of the Code ("Section 1256 Contracts") and that are held by the Fund at the end of its taxable year generally will be required to be "marked to market" for federal income tax purposes, that is, deemed to have been sold at market value. Sixty percent of any net gain or loss recognized on these deemed sales and 60% of any net gain or loss realized from any actual sales of Section 1256 Contracts will be treated as long-term capital gain or loss, and the balance will be treated as short-term capital gain or loss.

Section 988 of the Code contains special tax rules applicable to certain foreign currency transactions that may affect the amount, timing and character of income, gain or loss recognized by the Fund. Under these rules, foreign exchange gain or loss realized with respect to foreign currency-denominated debt instruments, foreign currency forward contracts, foreign currency denominated payables and receivables and foreign currency options and futures contracts (other than options and futures contracts that are governed by the mark-to-market and 60/40 rules of Section 1256 of the Code and for which no election is made) is treated as ordinary income or loss. Some part of the Fund's gain or loss on the sale or other disposition of shares of a foreign corporation may, because of changes in foreign currency exchange rates, be treated as ordinary income or loss under Section 988 of the Code rather than as capital gain or loss.

A shareholder who purchases shares of the Fund by tendering payment for the shares in the form of other securities may be required to recognize gain or loss for income tax purposes on the difference, if any, between the adjusted basis of the securities tendered to the fund and the purchase price of the Fund's shares acquired by the shareholder.

Section 475 of the Code requires that a "dealer" in securities must generally "mark to market" at the end of its taxable year all securities which it owns. The resulting gain or loss is treated as ordinary (and not capital) gain or loss, except to the extent allocable to periods during which the dealer held the security for investment. The "mark to market" rules do not apply, however, to a security held for investment which is clearly identified in the dealer's records as being held for investment before the end of the day in which the security was acquired. The IRS has issued guidance under Section 475 that provides that, for example, a bank that regularly originates and sells loans is a dealer in securities, and subject to the "mark to market" rules. Shares of the Fund held by a dealer in securities will be subject to the "mark to market"

rules unless they are held by the dealer for investment and the dealer property identifies the shares as held for investment.

Redemptions of shares of the Fund will result in gains or losses for tax purposes to the extent of the difference between the proceeds and the shareholder's adjusted tax basis for the shares. Any loss realized upon the redemption of shares within six months from their date of purchase will be treated as a long-term capital loss to the extent of distributions of long-term capital gain dividends during such six-month period. All or a portion of a loss realized upon the redemption of shares may be disallowed to the extent shares are purchased (including shares acquired by means of reinvested dividends) within 30 days before or after such redemption.

Distributions and redemptions may be subject to state and local income taxes, and the treatment thereof may differ from the federal income tax treatment. Foreign taxes may apply to non-U.S. investors.

Nonresident aliens and foreign persons are subject to different tax rules, and may be subject to withholding of up to 30% on certain payments received from the Fund. Shareholders are advised to consult with their own tax advisers concerning the application of foreign, federal, state and local taxes to an investment in the Fund.

Under the Code, the Fund will be required to report to the Internal Revenue Service all distributions of taxable income and capital gains as well as gross proceeds from the redemption or exchange of Fund shares, except in the case of certain exempt shareholders. Under the backup withholding provisions of Section 3406 of the Code, distributions of taxable net investment income and net capital gain and proceeds from the redemption or exchange of the shares of a regulated investment company may be subject to withholding of federal income tax (currently at a rate of 24%) in the case of non-exempt shareholders who fail to furnish the investment company with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law, or if the Fund is notified by the IRS or a broker that withholding is required due to an incorrect TIN or a previous failure to report taxable interest or dividends. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld.

The above discussion and the related discussion in the Prospectus are not intended to be complete discussions of all applicable federal tax consequences of an investment in the Fund. Alston & Bird LLP has expressed no opinion in respect thereof.

Options, Futures, Forward Contracts and Swap Agreements

To the extent such investments are permissible for the Fund, the Fund's transactions in options, futures contracts, hedging transactions, forward contracts, straddles and foreign currencies will be subject to special tax rules (including mark-to-market, constructive sale, straddle, wash sale and short sale rules), the effect of which may be to accelerate income to the Fund, defer losses to the Fund, cause adjustments in the holding periods of the Fund's securities, convert long-term capital gains into short-term capital gains and convert short-term capital losses into long-term capital losses. These rules could therefore affect the amount, timing and character of distributions to shareholders.

To the extent such investments are permissible, certain of the Fund's hedging activities (including its transactions, if any, in foreign currencies or foreign currency-denominated instruments) are likely to produce a difference between its book income and its taxable income. If the Fund's book income exceeds its taxable income, the distribution (if any) of such excess book income will be treated as (i) a dividend to the extent of the Fund's remaining earnings and profits (including earnings and profits arising from tax-exempt income), (ii) thereafter, as a return of capital to the extent of the recipient's basis in the

shares, and (iii) thereafter, as gain from the sale or exchange of a capital asset. If the Fund's book income is less than taxable income, the Fund could be required to make distributions exceeding book income to qualify as a regulated investment company that is accorded special tax treatment.

Passive Foreign Investment Companies

Investment by the Fund in certain "passive foreign investment companies" ("PFICs") could subject the Fund to a U.S. federal income tax (including interest charges) on distributions received from the company or on proceeds received from the disposition of shares in the company, which tax cannot be eliminated by making distributions to Fund shareholders. However, the Fund may elect to treat a PFIC as a "qualified electing fund" ("QEF"), in which case the Fund will be required to include its share of the company's income and net capital gains annually, regardless of whether it receives any distribution from the company.

The Fund also may make an election to mark the gains (and to a limited extent losses) in such holdings "to the market" as though it had sold and repurchased its holdings in those PFICs on the last day of the Fund's taxable year. Such gains and losses are treated as ordinary income and loss. The QEF and mark-to-market elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed for the Fund to avoid taxation. Making either of these elections therefore may require the Fund to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect the Fund's total return.

Foreign Currency Transactions

The Fund's transactions in foreign currencies, foreign currency-denominated debt securities and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned.

Foreign Taxation

Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax treaties and conventions between certain countries and the U.S. may reduce or eliminate such taxes. If more than 50% of the value of the Fund's total assets at the close of its taxable year consists of securities of foreign corporations, the Fund may be able to elect to "pass through" to its shareholders the amount of eligible foreign income and similar taxes paid by the Fund. If this election is made, a shareholder generally subject to tax will be required to include in gross income (in addition to taxable dividends actually received) his or her pro rata share of the foreign taxes paid by the Fund, and may be entitled either to deduct (as an itemized deduction) his or her pro rata share of foreign taxes in computing his or her taxable income or to use it as a foreign tax credit against his or her U.S. federal income tax liability, subject to certain limitations. In particular, a shareholder must hold his or her shares (without protection from risk of loss) on the ex-dividend date and for at least 15 more days during the 30-day period surrounding the ex-dividend date to be eligible to claim a foreign tax credit with respect to a gain dividend. No deduction for foreign taxes may be claimed by a shareholder who does not itemize deductions. Each shareholder will be notified within 60 days after the close of the Fund's taxable year whether the foreign taxes paid by the Fund will "pass through" for that year.

Generally, a credit for foreign taxes is subject to the limitation that it may not exceed the shareholder's U.S. tax attributable to his or her total foreign source taxable income. For this purpose, if the pass-through election is made, the source of the Fund's income will flow through to shareholders of the Fund.

With respect to the Fund, gains from the sale of securities will be treated as derived from U.S. sources and certain currency fluctuation gains, including fluctuation gains from foreign currency-denominated debt securities, receivables and payables will be treated as ordinary income derived from U.S. sources. The limitation on the foreign tax credit is applied separately to foreign source passive income, and to certain other types of income. A shareholder may be unable to claim a credit for the full amount of his or her proportionate share of the foreign taxes paid by the Fund. The foreign tax credit can be used to offset only 90% of the revised alternative minimum tax imposed on corporations and individuals and foreign taxes generally are not deductible in computing alternative minimum taxable income.

Original Issue Discount and Pay-In-Kind Securities

Current federal tax law requires the holder of a U.S. Treasury or other fixed income zero coupon security to accrue as income each year a portion of the discount at which the security was purchased, even though the holder receives no interest payment in cash on the security during the year. In addition, pay-in-kind securities will give rise to income, which is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt securities that are issued originally at a discount. Generally, the amount of the original issue discount (“OID”) is treated as interest income and is included in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. A portion of the OID includable in income with respect to certain high-yield corporate debt securities (including certain pay-in-kind securities) may be treated as a dividend for U.S. federal income tax purposes.

Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having market discount. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt security having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt security. Market discount generally accrues in equal daily installments. The Fund may make one or more of the elections applicable to debt securities having market discount, which could affect the character and timing of recognition of income.

Some debt securities (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having acquisition discount, or OID in the case of certain types of debt securities. Generally, the Fund will be required to include the acquisition discount, or OID, in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. The Fund may make one or more of the elections applicable to debt securities having acquisition discount, or OID, which could affect the character and timing of recognition of income.

In addition, the 2017 Tax Cuts and Jobs Act requires that taxpayers, such as the Fund, that use an accrual method of accounting for U.S. federal income tax purposes are generally required to include certain amounts in income no later than the time such amounts are reflected on such taxpayer’s applicable financial statements. Certain fees treated as OID may be included as income for financial statement purposes when received (as opposed to being accrued into income over the term of the debt instrument), which may thus require such amounts be treated as taxable income of the Fund upon their receipt.

If the Fund holds the foregoing kinds of securities, it may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio

securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution, if any, than they would in the absence of such transactions.

Shareholders of the Fund may be subject to state and local taxes on distributions received from the Fund and on redemptions of the Fund's shares.

A brief explanation of the form and character of the distribution accompany each distribution. In January of each year the Fund issues to each shareholder a statement of the federal income tax status of all distributions.

Shareholders should consult their tax advisors about the application of federal, state and local and foreign tax law in light of their particular situation.

Dividends and Distributions

The Fund will receive income in the form of dividends and interest earned on its investments in securities. This income, less the expenses incurred in its operations, is the Fund's net investment income, substantially all of which will be declared as dividends to the Fund's shareholders.

The amount of income dividend payments by the Fund is dependent upon the amount of net investment income received by the Fund from its portfolio holdings, is not guaranteed and is subject to the discretion of the Board. The Fund does not pay "interest" or guarantee any fixed rate of return on an investment in its shares.

The Fund also may derive capital gains or losses in connection with sales or other dispositions of its portfolio securities. Any net gain the Fund may realize from transactions involving investments held less than the period required for long-term capital gain or loss recognition or otherwise producing short-term capital gains and losses, although a distribution from capital gains, will be distributed to shareholders with and as a part of dividends giving rise to ordinary income. If during any year the Fund realizes a net gain on transactions involving investments held more than the period required for long-term capital gain or loss recognition or otherwise producing long-term capital gains and losses, the Fund will have a net long-term capital gain. For more information concerning applicable capital gains tax rates, see your tax advisor.

Any dividend or distribution paid by the Fund reduces the Fund's NAV per share on the date paid by the amount of the dividend or distribution per share. Accordingly, a dividend or distribution paid shortly after a purchase of shares by a shareholder would represent, in substance, a partial return of capital (to the extent it is paid on the shares so purchased), even though it would be subject to income taxes.

Dividends and other distributions will be made in the form of additional shares of the Fund unless the shareholder has otherwise indicated. Investors have the right to change their elections with respect to the reinvestment of dividends and distributions by notifying the Transfer Agent in writing, but any such change will be effective only as to dividends and other distributions for which the record date is seven or more business days after the Transfer Agent has received the written request.

Cost Basis Reporting

The Fund is required to report to certain shareholders and the IRS the cost basis of shares acquired by a shareholder on or after January 1, 2012 ("covered shares") when the shareholder sells, exchanges or redeems such shares. These requirements do not apply to shares held through a tax-deferred

arrangement, such as a 401(k) plan or an IRA, or to shares held by tax-exempt organizations, financial institutions, corporations (other than S corporations), credit unions and certain other governmental bodies. Shares acquired before January 1, 2012 (“non-covered shares”) are treated as if held in a separate account from covered shares. The Fund is not required to determine or report a shareholder’s cost basis in non-covered shares and are not responsible for the accuracy or reliability of any information provided for non-covered shares.

The cost basis of a share is generally its purchase price, adjusted for distributions, returns of capital, and other corporate actions. Cost basis is used to determine whether the sale, exchange or redemption of a share results in a capital gain or loss. If you sell, exchange or redeem covered shares during any year, then the Fund will report the gain or loss, cost basis, and holding period of such covered shares to the IRS and you on Form 1099.

A cost basis method is the method by which the Fund determines which specific covered shares are deemed to be sold, exchanged or redeemed when a shareholder sells, exchanges or redeems less than its entire holding of Fund shares and has made multiple purchases of Fund shares on different dates at differing NAVs. If a shareholder does not affirmatively elect a cost basis method, the Fund will use the average cost method, which averages the basis of all Fund shares in an account regardless of holding period, and shares sold, exchanged or redeemed are deemed to be those with the longest holding period first. Each shareholder may elect in writing (and not over the telephone) any alternate IRS-approved cost basis method to calculate the cost basis in its covered shares. The default cost basis method applied by the Fund or the alternate method elected by a shareholder may not be changed after the settlement date of a sale, exchange or redemption of Fund shares.

If you hold Fund shares through a broker (or another nominee), please contact that broker or nominee with respect to the reporting of cost basis and available elections for your account.

You are encouraged to consult your tax adviser regarding the application of these cost basis reporting rules and, in particular, which cost basis calculation method you should elect.

Financial Statements

The financial statements of the Fund for the fiscal year ended May 31, 2024, and the independent registered public accountant’s report dated July 30, 2024, are incorporated herein by reference to the Fund’s Annual Report. These financial statements include the portfolio of investments, statement of assets and liabilities, statement of operations, statements of changes in net assets, financial highlights and notes to the financial statements. The Fund will provide the Fund’s Annual Report without charge upon request in writing or by telephone.

APPENDIX “A” Proxy Voting Policy

Policy

KKM Financial, LLC (“ADVISER”), as a matter of policy and as a fiduciary, has responsibility for voting proxies for portfolio securities consistent with the best economic interests of the Funds, Portfolios and clients. Our firm maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about our firm’s proxy policies and practices. Our policy and practice include the responsibility to monitor corporate actions, receive and vote client proxies and disclose any potential conflicts of interest as well as making information available to clients about the voting of proxies for their portfolio securities and maintaining relevant and required records.

Background

Proxy voting is an important right of shareholders and reasonable care and diligence must be undertaken to ensure that such rights are properly and timely exercised.

Investment advisers registered with the SEC, and which exercise voting authority with respect to client securities, are required by Rule 206(4)-6 of the Advisers Act to (a) adopt and implement written policies and procedures that are reasonably designed to ensure that client securities are voted in the best interests of clients, which must include how an adviser addresses material conflicts that may arise between an adviser's interests and those of its Funds, Portfolios and clients; (b) to disclose to Funds, Portfolios and clients how they may obtain information from the adviser with respect to the voting of proxies for their securities; (c) to describe to clients a summary of its proxy voting policies and procedures and, upon request, furnish a copy to its clients; and (d) maintain certain records relating to the adviser's proxy voting activities when the adviser does have proxy voting authority.

Responsibility

Daniel Deming has the responsibility for the implementation and monitoring of our proxy voting policy, practices, disclosures and record keeping, including outlining our voting guidelines in our procedures.

Procedure

KKM has adopted procedures to implement the firm’s policy and reviews to monitor and insure the firm’s policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

Voting Procedures

I. INTRODUCTION

KKM has adopted proxy voting policies and procedures as required by Rule 206(4)-6 of the Investment Advisers Act of 1940. These policies and procedures are effective on January 31, 2019.

II. GLOSSARY OF TERMS

Non-Routine Proxy Proposals shall mean:

- Proxy proposals that are to be considered on a case-by-case basis,

- Proxy proposals that Advisor generally abstains from voting on, and
- Proxy proposals that are not addressed by the Principles and Guidelines section of the Proxy Voting Policy and Procedures.

Proxy Manager shall be Daniel Deming, Managing Director.

Proxy Committee shall be comprised of the following person(s):

- 1) Jeff Kilburg, Founder & CEO
- 2) Daniel Deming, Managing Director

A quorum of the Proxy Committee shall be comprised of at least one member.

Routine Proxy Proposals shall mean proxy proposals that the Proxy Manager shall cast either for or against votes, or abstain, in accordance with the Principles and Guidelines noted below.

III. PRINCIPLES AND GUIDELINE

A. Principles

KKM's primary purpose and fiduciary responsibility is to maximize shareholder value, which is defined as share price and dividend appreciation. KKM will vote proxies in the best interests of our Funds, Portfolios and clients and will generally vote for, against, consider on a case-by-case basis, or abstain from voting as indicated below. Because of the extenuating circumstances associated with specific proxy issues, KKM's votes may differ from time to time from the indications noted. In addition, the list may not include all proxies on which KKM votes. KKM will also act, in our best judgment, on behalf of our Funds, Portfolios and clients on certain corporate actions that impact shareholder value, such as tender offers and bankruptcy proceedings.

B. Voting Guidelines

1. Routine Business Decisions and Director Related Proposals

Advisor votes for:

- a) Name changes
- b) Directors in uncontested elections
- c) Elimination/limitation of directors' liability
- d) Indemnification of directors
- e) Reincorporation that is not a takeover defense

Advisor considers on a case-by-case basis:

- f) Directors in contested elections
- g) Approval of auditors.

2. Corporate Governance

Advisor votes for:

- a) Majority independent board
- b) Audit, compensation & nominating committees that are comprised exclusively of independent directors
- c) Minimum director share ownership
- d) Separate offices of chairperson and CEO
- e) Limitation on number of other board seats
- f) Confidential voting

- g) Shareholders' ability to remove directors
- h) Shareholder right to call special meetings

Advisor votes against:

- a) Supermajority vote requirements
KKM will support proposals to remove supermajority requirements and oppose proposals to impose them.
 - b) Limiting directors' tenure
 - c) Restrictions on shareholders to act by written consent
- Advisor considers on a case-by-case basis:
- d) Shareholder proposals
 - e) Dissident proxy battle

3. Director and Executive Compensation

Advisor votes for:

- a) Disclosure of executive compensation

Advisor votes against:

- b) Golden and tin parachutes

Advisor considers on a case-by-case basis:

- c) Restricting executive compensation
- d) Executive compensation plans
- e) Establish/Increase share option plans for directors and executives

4. Take-Over Defense

Advisor votes against:

- a) Reincorporation to prevent takeover
- b) Issue new class of common stock with unequal voting rights
- c) Adoption of fair price amendments
- d) Establish a classified (or "staggered") board of directors
- e) Eliminating cumulative voting
- f) Poison pills
- g) Blank check preferred stock

5. Capital Structure

Advisor votes for:

- a) Increase authorized common stock (unless additional stock is a takeover defense, i.e., poison pill).
- b) Share repurchase programs (when all shareholders may participate on equal terms)

Advisor votes against:

- c) Unequal voting rights, such as dual class of stock
- d) Pre-emptive rights

Advisor considers on a case-by-case basis:

- e) Increase preferred stock
- f) Blank check preferred stock (not for takeover defense)
- g) Restructuring plans

6. Other Shareholder Value Issues

Advisor votes for:

- a) Employee stock ownership plans (ESOPs)
- b) Employee stock purchase plans
- c) 401(k) plans

Advisor votes against:

- c) Greenmail

Advisor considers on a case-by-case basis:

- e) Mergers and acquisitions
- d) Spin-offs and asset sales

7. Corporate, Social and Environmental Policy Proposals

As noted above, KKM's fiduciary responsibility is the maintenance and growth of our clients' assets. Accordingly, KKM will typically vote in accordance with management's recommendations or abstain from voting on proposals concerning corporate policy and social and environmental issues. When such proposals impact shareholder value, Advisor may vote on a case-by-case basis.

8. Proposals Specific to Mutual Funds

KKM serves as investment adviser to certain investment companies under the Northern Lights Fund Trust. These funds invest in other investment companies that are not affiliated ("Underlying Funds") and are required by the Investment Company Act of 1940, as amended (the "1940 Act") Act to handle proxies received from Underlying Funds in a certain manner. Notwithstanding the guidelines provided in these procedures, it is the policy of KKM to vote all proxies received from the Underlying Funds in the same proportion that all shares of the Underlying Funds are voted, or in accordance with instructions received from fund shareholders, pursuant to Section 12(d)(1)(F) of the 1940 Act. After properly voted, the proxy materials are placed in a file maintained by the Chief Compliance Officer for future reference.

IV. Conflicts of Interest

On occasion, a conflict of interest may exist between KKM and the Funds, Portfolios and clients regarding the outcome of certain proxy votes. In such cases, KKM is committed to resolving the conflict in the best interest of our Funds, Portfolios and clients before we vote the proxy in question.

If the proxy proposal is a Routine Proxy Proposal, KKM will typically adhere to the standard procedure of referring to the principles and guidelines described herein in deciding how to vote. Alternatively, KKM may disclose the conflict to our clients

and obtain their consent before voting or seek the recommendation of an independent third party in deciding how to vote.

If the proxy proposal is a Non-Routine Proxy Proposal, KKM will take any of the following courses of action to resolve the conflict:

- 1) Disclose the conflict to our Funds, Portfolios and clients and obtain consent before voting;
- 2) Suggest that our Funds, Portfolios and clients engage another party to determine how the proxy should be voted; or
- 3) Vote according to the recommendation of an independent third party, such as

a:

- proxy consultant;
- research analyst;
- proxy voting department of a mutual fund or pension fund; or
- compliance consultant.

V. Obtaining More Information

Funds, Portfolios and clients may obtain a record of Advisor's proxy voting, free of charge, by emailing info@kkmfinancial.com or calling (312) 448-7230.

These policies and procedures may also be found in KKM's Form ADV, Part II and supporting schedules.

Procedures

When the mail arrives, the person responsible for separating the mail gives any proxy materials to the person who handles compliance issues. The proxy materials are then opened by the Compliance person. The ticker symbol for the security noted on the proxy is located. The security is cross referenced to the account holding the shares listed on the proxy.

Once the Security Cross Reference report has been run, the number of shares on the report is compared to the number of shares to be voted on the proxy.

If the number of shares between the two reports matches, then the report is attached to the proxy materials and forwarded to the Portfolio Manager to be voted according to KKM's proxy voting policies.

If the number of shares does not match, then reasonable efforts will be made to resolve the difference, such as:

- Rerunning the Security Cross Reference report for other dates around the record date of the proxy to see if the security transferred into KKM after the record date, even though the client owned it as of the record date.
- Calling the custodian to confirm the clients per their records that are included in the proxy count, and then verifying that information to the Security Cross Reference report. There may be differences due to clients having made the decision to vote their proxies, in which case, the proxies would go directly to the clients.

If the difference still cannot be resolved, the matter is reviewed with the Portfolio Manager as to the next action to be taken. If the difference is determined to be immaterial and is approved by the Portfolio Manager, then the proxy will stand as is.

Once the shares have been reconciled, then the proxy materials and the Security Cross Reference report are then given to the Portfolio Manager to vote.

The Portfolio Manager will generally vote the routine proxies in accordance with the principles and guidelines described in KKM's Proxy Voting Policy and sign the proxy. For Non-Routine Proxy Proposals, the Portfolio Manager will vote them on a case-by-case basis. The vote and the rationale will be noted as documentation for the vote.

Once the Portfolio Manager has voted the proxies, they will be given to the Firm's designated representative for processing. If the proxy is to be mailed, then a copy of the proxy is made, attached to the proxy materials that support the vote and Security Cross Reference report and filed in chronological order. This file is maintained by year.

If the proxy was voted electronically, the original proxy with the notes on it as to how the proxy was voted, are maintained and attached to the proxy materials that support the vote and Security Cross Reference report, and filed in chronological order, just like proxies that are mailed.

KKM's designated representative then enters the necessary information in the Proxy Voting Database. The following information is entered:

- Name of Company
- Proxy Proposal
- Management's recommendation
- KKM's Action
- Rationale for the vote
- List of clients to whom the proxy vote applies.

Should KKM receive any requests from clients regarding proxy voting, the Firm's designated representative will maintain a record of the requests from the specific clients, which will include:

- Name of the Client
- Date that the request was received
- Whether the request was for a complete or partial record of proxy votes
- The documents provided
- Date that the information was sent to the client

A copy of the information sent to the client will be retained in a chronological file, maintained by year.

Disclosure

The KKM will provide conspicuously displayed information in its Form ADV Part II in the Supporting Schedules, summarizing this proxy voting policy and procedures, including a statement that clients may request information regarding how KKM voted a client's proxies, and that clients may request a copy of these policies and procedures.
